Thread: [The Flood | Recruiting | C++/Delphi Coding Group](#)

Investigator' - March 3, 2013, 10:56 am

== | C++/Delphi Coding Group | ==

Recruitment: Closed

Welcome to our recruitment thread!

Introduction:

The Flood is a brand new coding group based on the programming languages C++ and/or Delphi. Our group is a caring, family-like society, with no borders for knowledge and imagination. In The Flood, everybody is equal independent on their HackForums rank. Our purpose is to take the creation of hacking tools to a totally new level. We wish to break out from the ordinary, and with YOUR support, this will be certainly possible - assuming that you wish to contribute, of course.

There's always something to make better and new ideas to bring into reality. Firstly, we would like to advance in the programming of hacking tools as a society (mostly keyloggers, bots and scamware), while on the other hand, we will strive to make The Flood as comfortable and friendly as possible. We will organize team work, and you will be able to share your innovative ideas and projects freely with those who were accepted and have contributed, and expect the same, too! - We are not concerned about fancy GUIs or over-complicated code, our goal is to make EFFECTIVE and IMPRESSIVE programs, all in all. Anyone, who is interested in coding and has at least basic knowledge - able to make a custom coded, yet simple but on-the-point keylogger OR any similar hacking tool - will be able to join. All other requirements are listed below. Our projects will be new and experimental, so it does not matter what color your "hat" is, simply - we are programmers, and if you are willing to contribute, we'll take you on.

Requirements:

- Basic or advanced knowledge of the C++/Delphi/Pascal programming languages - required*
- Friendly attitude and a will to contribute - required*
- A creative mind - optional, but can help dozens!
- Skype/MSN account - optional

If you wish to take part, do not hesitate! All you have to do is post your current level of programming knowledge, your plans, and anything else you'd like to tell us about yourself. As you could have guessed, there's no application form - use your imagination. You're going to need it in the future, anyways!

Further information:

Further details shall be discussed in a Skype/MSN group or a private conversation with one of the leaders by PM. If there's anything you'd like to ask, feel free to do so (even if you think it's a silly question, asking won't hurt!) - we will be happy to answer any of your inquiries.

Good luck! ?

Xirian - March 3, 2013, 11:18 am

Well done with the thread, mate! ?

Apply guys, you don't have to be a genius to get in. ?

iNuke - March 3, 2013, 11:21 am

Nice group guys.

Sexy is legit and friendly.

Good luck with it ?

Investigator' - March 3, 2013, 1:20 pm

Thanks, I put much work into working out and organise the group itself, I hope we'll have so many members like a Flood.

Thank you for your post, brother! I know you well and you are welcome into the Flood anytime if you learned a coding language from the list above, atleast on basic level.

<http://www.youtube.com/watch?v=BfO0TjJrTEU>

idk, this group reminded me of this song. ?

On-topic, sounds pretty fun and cool. Might apply later, we'll see. ?

edit: Nvm, I don't know C++/Delphi/Pascal. xD

[off] I haven't heard about them, but this song sounds great here. [off]

[on] I appreciate your comment even if you don't code in those languages. Maybe you'll learn one of them on one day and then the Flood will cruelly absorb you.

ankr - March 3, 2013, 1:35 pm

yes, ok :

I know both C++ and Delphi. C++ is btw my favorite language, doing it for about 2 years now. I was required to learn Delphi in school, 3 years now. However I'll be honest and say I find Delphi ugly, but I still use it when I want to make some Simple stuff with a gui. My plans:

I am quite busy right now (finals) but I will have loads of free time in summer and I am planning to do some nice bigger projects for example: a bunch of bots (poker, irc, pastebin, ..), I also want to make a simple rat and eventually a crypter (i know, i know.)

so lets do a requirements - check:

- Basic or advanced knowledge of the C++/Delphi/Pascal programming languages - required* - CHECK

- Friendly attitude and a will to contribute - required* - CHECK

- A creative mind - optional, but can help dozens! - CHECK

- Skype/MSN account - optional - well I have them, but dont use them. irc?

cheers.

Kyle1995 - March 3, 2013, 10:45 pm

- Basic or advanced knowledge of the C++/Delphi/Pascal programming languages - I code in c++, probably intermediate. I don't know Delphi/Pascal.

- Friendly attitude and a will to contribute - Got it.

- A creative mind - Got it.

- Skype/MSN account - I have a skype.

I can see a really promising application right there! We accept the fact that you are busy with your finals at this time, and The Flood will expect your active contribution as soon as possible. However, we are require that you take part in common discussions as much as your current time enables you to do so. I prefer C++ over Delphi as well, but it won't hurt if you know both of them!

(Mar 3, 2013 11:45 PM)Curve Wrote: [\[CITE\]](#) - Basic or advanced knowledge of the C++/Delphi/Pascal programming languages - I code in c++, probably intermediate. I don't know Delphi/Pascal.

- A creative mind - Got it.
- Skype/MSN account - I have a skype.

Neat, serious application. Your post (and history) have been reviewed and The Flood finds you suitable for acceptance. C++ is a good choice. You'll have enough possibilities to access it in our group!

Xirian - March 8, 2013, 12:35 pm

A warm welcome to our new candidates! We are getting on nicely, and all of the preparations for the group are complete - it's time to roll, finally! We need you, and you need us, well don't hesitate to apply today! We shall become programming ARTISTS. ?

Pendalum - March 8, 2013, 8:00 pm

I would like to start learning Delphi :)

Can I join tho I am a noob to it ?

Satisfaction - March 8, 2013, 8:03 pm

May I still join if I seek to learn these languages?

Investigator' - March 9, 2013, 9:50 am

Yes. In my ideology: everyone is able to learn. It's a primal human ability. Show us you've got strong will and welcome into the group! Maybe I'm the founder of the group, but not a judge and judging you is not my task. By time You'll see your own destiny. Until that, join us as far as you can support our group with any significant contribution.

Xync - March 9, 2013, 9:52 am

- Basic or advanced knowledge of the C++/Delphi/Pascal programming languages - Basic knowledge of the C++.
- Friendly attitude and a will to contribute - Yes.
- A creative mind - Yes.
- Skype/MSN account - Skype.

Xirian - March 9, 2013, 9:56 am

(Mar 9, 2013 10:52 AM)?Sky Wrote: [\[CITE\]](#) - Basic or advanced knowledge of the C++/Delphi/Pascal programming languages - Basic knowledge of the C++.

- Friendly attitude and a will to contribute - Yes.
- A creative mind - Yes.
- Skype/MSN account - Skype.

Let's see what you're made of! PMed you. ?

I mean im open to learn both, just don't know which! :]

How do I get in?

You received two PMs with the necessary informations. Make sure to read them and welcome into the group! ?

Frightening - March 10, 2013, 1:51 pm

- Basic or advanced knowledge of the C++/Delphi/Pascal programming languages - Half the time I'm in the coding section unfortunately still attached to VB, .NET Framework category.
- Friendly attitude and a will to contribute - Most definitely
- A creative mind - optional, but can help dozens! - Yes.
- Skype/MSN account - optional - Yes.

bulletblast100 - March 12, 2013, 12:39 pm

- Basic or advanced knowledge of the C++/Delphi/Pascal programming languages - required*- I can code in VB.net, and BATCH (I'm starting to learn C++)
- Friendly attitude and a will to contribute - required*- Yes, no one likes to be around mean people.
- A creative mind - optional, but can help dozens! Yes everyone has a creative mind in the own way
- Skype/MSN account - optional- Yes

Guitar Hax - March 13, 2013, 12:08 am

- Basic or advanced knowledge of the C++/Delphi/Pascal programming languages - I know nothing but I really want to learn!
 - Friendly attitude and a will to contribute - Yessir
 - A creative mind - Yessir
 - Skype/MSN account - I have a skype.
 - Side note: I am on Linux however I would be willing to convert to Windows if absolutely needed.
- Duelboot for the win.

Xirian - March 14, 2013, 12:42 pm

Our memberbase is expanding nicely. Something big is already getting nearer, day by day. ?

Clark Kent™ - March 14, 2013, 2:34 pm

I know basic c# and C++ but I am learning and I want to learn.

I would be honored to be accepted to this HQ looking group.
I am very nice and pretty trusted as my rep points out :)
I got Skype too

Investigator' - March 16, 2013, 12:05 pm

I updated the thread. We are still recruiting. The admitted shall get PM by time. ?

File Transfer Protocol - March 16, 2013, 12:17 pm

I have been programming in Delphi, for around three years. I would class myself as an intermediate, and I would love to join. I am more than happy to engage in group activities and projects, I have a creative mind, and I would also like to write tutorials for other members.

Wentworth Miller - March 16, 2013, 1:22 pm

This looks like a really nice and fun group to be in. I have a question: I have not really basic knowledge of the languages listed above but I have knowledge of HTML and basic PHP (I also am interested to learn). Can I join to do that?

Xirian - March 16, 2013, 1:41 pm

(Mar 16, 2013 01:22 PM)Wentworth Miller Wrote: [\[CITE\]](#) This looks like a really nice and fun group to be in. I have a question: I have not really basic knowledge of the languages listed above but I have knowledge of HTML and basic PHP (I also am interested to learn). Can I join to do that?

I certainly believe so. If you are able to prove yourself knowledgeable in an area of programming, I think you'll fit in. But you also need a creative mind and will to contribute. You help us, we help you, and thus we help ourselves. ?

Wentworth Miller - March 16, 2013, 1:45 pm

(Mar 16, 2013 01:41 PM)Napalm™ Wrote: [\[CITE\]](#) I certainly believe so. If you are able to prove yourself knowledgeable in an area of programming, I think you'll fit in. But you also need a creative mind and will to contribute. You help us, we help you, and thus we help ourselves. ?

I get what you mean. I am going to start learning C++ and once I learned the basics and got familiar with it I will fill out an application form. Thank you for your answer.

Nixing - March 16, 2013, 2:32 pm

It sounds like a great group so far, big Vouch and good luck with your future projects!

Warren G - March 17, 2013, 1:03 am

Vouch for this group, they release only high quality products to HF.

Clark Kent™ - March 17, 2013, 1:50 am

Hey S3XY am I denied or accepted or what?

Investigator' - March 17, 2013, 4:43 am

(Mar 17, 2013 01:03 AM)Warren G Wrote: [\[CITE\]](#) Vouch for this group, they release only high quality products to HF.

Thank you! We appreciate your positive activity. You are helpful.

(Mar 17, 2013 01:50 AM)Clark Kent™ Wrote: [\[CITE\]](#) Hey S3XY am I denied or accepted or what?

Be patient, please! We are not human artificial intelligences controlled by a supercomputer and that's why We need to eat, drink, sleep, live social life and obviously code our own projects too. We will take care of everypony when their time has come.

Clark Kent™ - March 17, 2013, 5:17 am

Everypony XD

Thanks so much for accepting me

Good Luck - *March 17, 2013, 9:33 pm*

I would have applied, but since i am not even at intermediate level at coding + languages, i would pass for now!

But this looks really amazing :)
GL with the group :)
Cheers!

Investigator' - *March 19, 2013, 8:30 am*

Cheers!

We have got unlimited memberlist and enough advanced administrating system to handle numerous members. In fact, your current level in programming won't be a barrier for you (nor for us) if you are able to learn fast and effectively. If you have got time and will for catching up, I'm sure you could find a place in our swarm.
