Thread: [\[VB.NET\] Collection of Source Codes \[MEGA PACK\]](#)

fIAmingw0rm - March 23, 2010, 12:31 pm

Hello HackForums,

I've downloaded lots of source codes while I was learning basics, so I thought of sharing them! Some of them might be already posted here, but I wanted to make a collection in one post, so people don't have to waste time to search.

This pack includes the following source codes:

- Alart Clock
- Email Sending
- Mp3 Player
- MSN Messenger Portable
- NoVirusThanks Scanner
- Send Text Message - SMS
- VB DotNet PortScanner

- Hash Cracker
- File Cloner
- Licence (Make your program require a licence key to run)
- Basic RAT
- Screenshot
- Downloader (File Injector)
- Windows 7 KeyGen (Fake)
- Screen Capture
- Notepad
- Fake Error & Downloader
- Computer Information (Part 1,2,3,4)
- Keylogger (Basic)

s8nism - March 23, 2010, 12:35 pm

nice collection... downloading :)

flAmingw0rm - March 23, 2010, 12:35 pm

I can not reupload it anywhere, I lost 2 hours on uploading it to mediafire so far.

Yea, there are all the sources of Nathan and many others.

ThatGuyThis - March 23, 2010, 12:40 pm

Thanks for sharing!

2 short for HF again....

Dark0ne1 - March 23, 2010, 12:51 pm

Looks sexy. I got most of the sources though and most of them can be found in the sticky. Good collection nonetheless, +rep for you :)

Thank you dude.

Most of source codes are from HF. Yea, because other forums leech from HF, and that's why.

Freestyl3R - March 23, 2010, 1:49 pm

thx for nice share man ...

I seen your stalking the coding section today...

Well, on topic now. Good work, keep up the good work :). I've seen quite a few of these, but at least we know people are contributing. Anyway, if I use these, I'll be sure to give you credits.

what do you mean stalking the coding sec. All i do is program so were else would i be :) and yes if i use these i will give the proper credit. And on that note my fucking internet connection... I lost it at 99% of the download... <-GAY. I also contrubute to best of my ability im not a leecher thats for sure because if its one thing i cant stand are fuckin leechers? (and peolpe that dont give credit were its needed)

Yeah, by the way your comp info source, when you load it into vb express has 102 errors...I haven't looked into them at all, but just saying... :)

Indeed - March 24, 2010, 11:45 pm

Thankyou very much for this pack! :)

Not true. There are no errors, but in the v4 u get errors because you need DotNet. :)

If you use Symantec or some hacktools such as RATs.. And don't run the .EXE files. Only if you are a dumbass.

You don't have to download it, you don't even know what is this .. stop spamming my thread. If you think there is a virus, proof it. And as I said, don't run the .EXE files.

Yeah, why complain? He is not making you download it...

If you just run the vbproject file your not going to get anything even if there were...

???????

Actually, the files might be detected because I used to debug some srcs and the .exe are still there ..

However, don't run the .exe if there is any although they are NOT infected.

Looks to me more like his net connection timed out while he was downloading.

It couldnt be read to download it, not couldnt be found where it was saving too, it clearly states that the part file is still there to be used but data couldnt be read to write to it so surely the a/v wasnt the problem :P
