Thread: [\[New\] AdFlood Essential \[HF Exclusive\]](#)

Investigator' - March 9, 2013, 9:09 am

[NEW] AdFlood - One-Click Adware Builder [HF Exclusive]

AdFlood is a new generation of marketing/hacking tools. It combines all the advantages of diverse hacking and marketing tools in one while offers smooth GUI and easy usage for the users. It is coded in core C and supports all common OS(s) including Windows, Linux and Mac OS. AdFlood is HF exclusive. Developed by HF members for HF members. We have been studying the needs and expectations for a long time to make this unique tool only for YOU. It is very beginner friendly while offers professional solutions in the smooth way for the users.

With AdFlood you can choose from several possibilities including offline and online methods too. It supports both white-hat and black-hat ways depends on YOUR wish. AdFlood is able to generate unique FUD adwares for you. You can boost up your earnings quickly and without any serious knowledge in the theme.

Features (so far):

Easy to use

Smooth GUI

Long-time, scantime, runtime FUD

Uncrackable technology

Unique adwares under seconds

HF exclusive

AdFlood Essential is Free for all forever

Guaranteed increase in your earnings (if not, then we pay you \$5 via LR for your time)

Supports ALL OS(s)

Doesn't necessitate strong hardware

No dependencies at all

Coded in core C

Continuous customer support (yes, even at free version)

Free for ALL (Download link will be aviable in every country)

Supports PPC,PPD and many more monetizing methods

Comes with a practical guide (e-book) about monetizing using AdFlood (Essential version comes with an Elementary e-book)

Public beta test coming soon

Note: This is not a sales thread. It is an informative thread for beginners about a beginner-friendly tool.

Screenshot(s):

Download link: Coming soon!

Virus scan: Coming soon!

We are curious about your suggestions, because we'll make the tool keeping your wishes - dear members - before our eyes. What else should we add into the tool?

Coming soon...Expect us!

MultiCry - March 9, 2013, 9:11 am

Looks very very nice , I wait for this man!
Good job.

Payload - March 9, 2013, 9:14 am

Waiting on the DL link, can't wait to test this out. Sounds great.

Hyptonix - March 9, 2013, 9:21 am

If you're going to test, count me in. Sounds good so far. Hoping for some screens and video soon. Let me know.

Xirian - March 9, 2013, 9:24 am

Wonderful. We're working on this together, really soon more info and screens will be released as well!

xiraxhacker, we already have made a Ransomware Builder, that is, for Survey Locker. It was not released though, but seeing that there is demand for it, it shall be released! ?

Investigator' - March 9, 2013, 9:36 am

We appreciate your interests about our developments. Members like you give us power and

ambition to keep the development going. Your high spirits and contributory goodwill show us We're on the good way. We would like to support community independent from nationality, rank and financial situation. These are the words that worth us more than money.

With Love,
~ SE?Y, just a HF member

Definitely a demand.

I would like to test this ASAP. Thank-You for the response.

wenotsped - March 9, 2013, 11:07 pm

I would definitely like to participate, I would pay, but I don't have a verified paypal account. Also, this looks f**king awesome! Hope you have fun building it!

nitangle - March 10, 2013, 1:01 am

count me in toooo...awesome hob guys...m desparately waiting 4 this ..

regards

asero12 - March 10, 2013, 6:09 am

ill be waiting for the release of this program

Xirian - March 10, 2013, 12:40 pm

Here are the awaited screenshots, guys. Seeing that there is a slight confusion about the features, this will most likely sum it up!

Message123 - March 10, 2013, 12:43 pm

Looks good (Y) , i wait for download link :)

Voximation - March 11, 2013, 6:24 pm

This looks very awesome I would love to help you guys test it out if at all possible. Thanks for developing it for us.

Time Lord - March 11, 2013, 7:24 pm

Looks really brilliant. Looking forward to it! Thanks :)

Investigator' - March 12, 2013, 11:43 am

Actually, we are working on an anti-leak system to keep it HF exclusive and prevent leeching. This

technology will be first demonstrated with this tool. We are also working on E-book protection(s) and protective tools.

jonas98 - March 14, 2013, 1:28 pm

Thank you very much bro!!
Keep going

Investigator' - March 16, 2013, 12:12 pm

All the hype is almost making me impatient.. Lol. Keep the updates coming!

Warren G - March 16, 2013, 1:20 pm

Whether this is payed or not, I'm going to get this. Your coding group makes such high-quality products.

rata487 - March 16, 2013, 2:17 pm

I'm looking forward to it!
Thankyou for uploading this!

Thankyou for uploading this!

^^ Your interest proves that It's worth to develope.

raiz_222 - March 19, 2013, 7:28 pm

i am looking for this.. Thankyou for uploading this!

scout51 - March 19, 2013, 8:31 pm

I'll definitely give it a shot.. Send the link when you are ready
