Radium One - March 11, 2013, 4:44 pm

Vouch for this user. Very professional designs.

May I ask if you design everything from scratch or do you use fonts? Or is it a mix?

xitoxic - March 11, 2013, 8:39 pm

Thanks for all of your vouches.

About your question

It depends upon the logo , sometimes i make it from scratch and sometimes just edit a font which is licensed to use commercially , so the buyer will have no problems using it.

Chrona - March 11, 2013, 8:44 pm

Vouch for Xitoxic, oh man I have seen his work before and it's beautiful to say the least. This man has a really big dedication for GFX and he will fulfill your logo design need to the very last inch of detail.

I'll most likely be contacting you relatively soon;

\$30 is well worth your logo's in my opinion, much better than other services here.

Also;

Do you do business cards etc?

Vouch for this big time, I've always thought about getting into illustrator for logo designs but it requires a lot of knowledge and skill

I think more than \$30 for a logo is more than fair.

and my services are expensive also.

Major vouch for Toxic.

Before I found him, I tried two other designers whom charged me before the piece was even made and threw the claim of "I have 1.3k Feedback", so I took it for granted and paid ahead. Waited two weeks on the design from the other users and only to be disappointed with the work, he said you take what you get and ignored me.

Toxic on the other hand, will design high quality pieces of work and doesn't show any immaturity. If you dislike something about the piece, he'll fix it to your liking. Rather than being lazy and avoiding the work. His designs are extremely high quality and has anyone beat price wise on such great work. All my future work will be purchased through him. Very high quality and mature user. +1

Quite a hateful and grudgy post.

I will keep this in mind, Thanks for the heads up.

One thing i want to include is that sometimes the client gives the reference image to incorporate into the design,

sometimes the design turns out to be similar as a co-incidence too.

also most of these logos you shown are actually concepts for portfolio and not are sold .

Never really make reviews, but his work is worth it, especially for a designer with raw talent.

xitoxic is a warm welcoming guy and a mature professional. 10/10 for communication. (Key for business)

Patience is a virtue, every designer should take a leaf out of his book-

he did edits with ease and no complications, no huffs or puffs, just straight to the point.

Overall i'm really happy with my purchase, well worth the price I paid.

I wish you the best in business, you've definitely earned yourself a lifetime customer.

I have completed a \$400+ order with XiToxic.

His vectoring skills and skills as a graphics designer are amazing.

He created me 10 amazing vector/cartoon style designs as well as a logo and I am extremely impressed.

These designs are for commercial sale and use, and I will make a much more detailed, dedicated review once sales are up, for if it wasn't for these designs, customers would not be being of how great they are.

HUGE VOUCH.

HUUUUGGEEEE vouch for toxic!

I am actually surprised he kept up with me as I was extremely picky, I had him make a few concepts, and even make the tiniest edits. He did them all with an extremely positive attitude.

The logo he made for me was an eye-opener. I didn't expect it to come out as well as it did. I'll be using it for my actual business.

Thank you so much once again!

dabenz - August 27, 2016, 12:56 pm

At this time I am so excited. It all started this morning, I contacted a couple of designers. The first thing I noticed in him was that I didn't have to explain what I needed (unlike the others where I kept on explaining and sending screenshots but they still did not understand what I wanted) although it was quite a difficult job. He understood at once and then he said I should pay him before he started the job. I became skeptical but decided to send payment across.

XITOXIC just completed my job and I must confess, it wasn't what I was expecting as I was expecting an ordinary design but he gave me something out of the ordinary(He gave me the best of the best).

I have seen people write reviews on this site but I don't believe in what they write as I have come to the conclusion that they are paid to write reviews. But for me, I wasn't paid, he doesn't even know I am writing this.

Thanks bro... For taking your time to give me the best.

Huge vouch for xitoxic. I needed a logo done for my eCommerce website, and decided he was the man for the job. A reasonable price was paid for the amazing service I got from him. I am not the most creative guy in the world, nor the most artsy, so I had a tough time helping him visualize what I wanted for my logo. I left most of it up to him.

But he somehow knew exactly what I wanted, and created more than I could have hoped for. Thanks a ton man, it was a pleasure.

Added to ask how much for a logo i need.

I need to vouch this guy, He is just AWESOME He wanted to talk about my logo and take the order at 4 am on his country, I really appreciate it. He later messaged me once he woke up to finish all, and get the payment, need to say he is very professional. Alright lets continue, He asked me about the website and all, showed him and he did the idea himself and it turned fantastic, i really didnt knew how i wanted it to be but he perfectly managed to get a good idea of it, and do a nice outcome. Really happy with my result. Also he is very quick and all files are included on the price included free changes. He just took 7 hours to do my logo when he said 24/48 its amaizing. So yes, I recommend buy from this designer, its very professional, good people, does quality logos and works hard.

I like the thread design on this man, and your portfolio is amazing. I am not in need of anything, but if I ever am, I will probably come here. Also, I notice you made this in 2013 and it's still going? That's amazing.

Very huge vouch for xitoxic, he made official group Marketer's GFX for me. As you can see, it's the best quality work.

He was very easy to work with and price was too low too. I won't ever be using another GFX designer.

I recommend xitoxic.

Xitoxic made YouTube art for my channel, very good communication, very high quality work, and he's very nice guy. Don't hesitate to deal with this user for any gfx. ?

CoderEX - January 25, 2017, 12:44 pm

I must say that this graphic service is amazing! He answered all of my questions within mere minutes, and he was able to create a design for me with minimal guidance; and the design looks amazing! He created my business cards and leader head for me.

He was also able to make the graphic pieces really quickly (a day max, if not less) without sacrificing quality; this is something I really appreciate.

I will definitely be using him as my main graphic artist for my future graphical projects. I can definitely recommend him to anyone that is looking for graphical work to be done!

Keep up the great service!

My experience with xitoxoc has been the exact opposite of everyone else.

He did not provide me a professional logo.

He was not friendly and came off as pretentious.

He gave me one design and told me it was perfect. When it was far from. There are plenty of better artists from HF.

I won't be wasting my time with him again.

Huge vouch for Xitoxic, legit user and has some really amazing graphics skills!

L?ght - April 26, 2017, 10:59 am

I'm going to leave a solid vouch on this thread.

Xitoxic made a logo for me because I needed it as soon as possible and I didn't have access to Photoshop; and he did it in the state of the art. The guy is open to feedbacks, provides live previews and works quick. The fact that he also provides the .PSD and all the files that goes with the order is an even bigger plus.

Don't hesitate a second to go see him; dude knows what he's doing and I'm sure he'll make you happy.

Arrogance - April 26, 2017, 1:05 pm

After years of seeing xitoxic around the forum and never needing any graphic work, now that I needed something done, I decided to order a logo off him for a law firm and I couldn't be more pleased with the final result. I would not hesitate to work with him again, his work is above outstanding.

Xitoxic went out of his way to help me... Even though i was a complete pain in the ass customer constantly asking for changes, he showed proffesionalism and made the adaptations promptly.

His graphics work is amazing value for money. It's the same quality you would expect from a design house that would charge upwards of \$300 for logo designs, so you are getting amazing work for a very affordable and fair price!

I'm incredibly satisfied with the service, turnaround time and quality of work, and have now taken on Xitoxic as my go to designer for all my work.

You cannot just force somebody to work with you.
I reconsidered the proposal and felt that the budget was low for the job you were asking.

I simply denied it and every freelancer has this right to do.
I have worked with thousands of clients online and they never had any problems with me.

Also, I never took your money as upfront, I just denied the proposal.
How can you say I wasted your time when I didn't ever confirm working on the project or took any
upfront?

Absolutely ridiculous and non-sense statement.

PS: the user have shown just two bits of chats, It was his immature and unprofessional behavior
that led me to block him.

With all due respect, he hadn't taken an upfront payment which means he hadn't started the work. You had most likely known this correct? As there's no way somebody would begin working on a project that would cost so much without an upfront payment. ESPECIALLY because he hadn't confirmed with you that he would be doing it, all he did was provide you with a quote. A quotation does not entitle the freelancer to work with you unless confirmed by both parties.

I've just had a project completed by XITOXIC, extremely happy with the design, price and the turnover time. He was quick and provided me exactly what I wanted and went above and beyond my design expectations. If I need any work done in the future I will definitely be using him again. Thank you once again.

Big Man ? - April 26, 2018, 8:25 am

I've used xitoxic for 3 of my professional businesses. Each time he's amazed me with speed & the design.

Always asks before deciding on a final design.

bneumueller7 - April 27, 2018, 11:15 am

I have bought two logos from Xitoxic. Both times doing business with him were great. He delivered in a timely manner and made the edits I requested. He's very easy to work with. Great guy. He has my vouch.

Just used Xitonic services, great job fast delivery under 24 hours and a nice and professional work for a very affordable price, that I haven't found with any other graphist, thanks for your job and I hope we will have the opportunity to work again soon.

trenth - May 10, 2018, 7:18 am

Great work, very friendly.

Shotta - May 11, 2018, 1:17 am

I rarely leave reviews but I have to say that this guy is a great designer but has very bad customer service! Handles communication with his returning customers poorly and likely prefers working on bigger and new projects while ignoring his previous customers. All in all a good designer but very unreliable. Unacceptable for me as a businessman.

Marketing - May 11, 2018, 1:47 pm
