Thread: [\[Bored\] TAKING REQUESTS!\[Bored\]](#)

Joler1302 - March 24, 2010, 6:49 am

Im bored as hell so ill take some requests. Now dont ask me like "code me botnet pl0x" or "runtime crypter source111!!111!1"

but yeah im just bored so.. ?

?

They are giving requests and it seems that you have a excuse for why you don't want to do any of them.

a stringbuilder is a VB.net Type xD not a virus looolz

if you are tired why did you make the thread in the first place?

Zpirit - March 24, 2010, 7:49 am

will you give me source code for a Crypter

pl0ox

Joey K - March 24, 2010, 7:52 am

How about a time machine?

Ahh, not this again. XD

i was gonna post that xD but you requested it first looolz

TheGiantLeprechaun - March 24, 2010, 7:58 am

Could you build a few good looking fake Runescape programs?

Like an Auth Generator or a Pin Generator or a Gold adder. I dunno something 10 year olds will fall for on Youtube.

-TGL

Learn4Life - March 24, 2010, 4:17 pm

Could you make some fake looking GUI for random thinks?

memesbro - March 24, 2010, 4:43 pm

Do you have a RunPE that works on XP, Vista and W7?

Ultimatum! - March 24, 2010, 5:22 pm

Auth generator pl0x.

No seriously could you?

Thanks :)

Warhawk - March 24, 2010, 6:19 pm

make a fake ddos program that uses a satelite disguised as a teddy bear that spins around the earth.

Kotei - March 24, 2010, 8:47 pm

I want a FUD runtime/scantime crypter that works on xp/vista/7 with 13 polymorphic stubs. I don't want polymorphic RC4 by the way. I want either AES or XOR...

I also want a USG that truly is that...Every stub is unique..

I want all of the code to be unique so that it ensures that it is not stolen.

I want the source and then I want access to your computer to make sure I can delete the source from your computer

and then stop you from system restoring to get it back...

I then want you to have uploaded the source to a site that you logged into to upload it to so you can then delete the upload.

Make your own damn request...I ain't your request whore.

Warhawk - March 24, 2010, 9:07 pm

kk, fine but btw, you are my whore.

my new request:

i want a FUD Runtime/Scantime crypter coded in vb.net

Scantime needs to work on xp/vista/7

i want a USG that gives me FUD stubs every time

i want the source code to it all so i can sell your work

btw: i still want my ddos program that ddoses people from outer space and the satelite it uses it disguised as a teddy bear.

thanks man will +rep you when you give me everything i asked for :)

No it is one request a person meanie...

BTW I edited my original request.
