It's not because he's L33t that you have to trust him.

If someone has swag in their name, don't deal with them. Chances are they will be 12 year old scamming wannabe fags.

But you must remove his IP as posting personal information on this site is not allowed. Although he deserves to have his router fried by some skid.

Trackers - March 11, 2013, 9:44 pm

I am wondering to anyone who knows. He pretty much admitted to scamming in PMs and said that he knew about scam report and is just ignoring it pretty much. Am I aloud to contribute to this?

Lol you guys are all dumb, I offered him a refund and he declined so all these msges claiming I'm a scammer are false, if he is not accepting a refund then there is nothing else I can do.

HexOhm - March 12, 2013, 8:30 am

Scam report is legit as fuck, he stiffed me on views awhile ago before he got banned from ttg for scamming members
