Thread: [Visual C++ 2008 Express Edition Download Required](#)

blackeagle_mn - March 13, 2013, 2:33 pm

hello HF, and especiaaly the C++ section, i would like anyone to share with me a working offline installer for visual c++ 2008 since its the one we are using at class and i would want to have it on my pc.. however i've search HF and googled different locations but couldnt get a direct working torrent or direct download link! i've tried to install a 2.6mb file which happens to download the components and everything for vc++ 2008 but it stucks at 0mb download rate and it doesnt move.. so that y i want a offline installer so i'll download the setup and install plz assist
thanks

<https://www.dreamspark.com/>

blackeagle_mn - March 13, 2013, 3:04 pm

thanks for posting i've tried dreamspark and i've went through everything and still takes me to download and run the 2mb file which runs the online downloading of data and therefore stucks at 0mb/s download or transfer rate

so i was hoping for maybe all in one dvd or any file which contain visual c++ 2008 express edition!! comon someone on this planet should have an offline installer for it!!! :O

Well i think he should try downloading from annother browser ...

its working for me i've tried to download it .. there is no problem in.

Read the thread again then come back, there is no problem with the download however there is a

problem with your reading comprehension.
