Made a new instagram page dedicated to marijuana.
All my pictures get about 50-80 Likes in a few minutes.

I will only shout you out if the shoutout you give me gets a lot of likes. I'm doing this to benefit my new profile so if your pics only get a few likes that isn't helping anyone.

Username: GreatStrains

When you're done post here, and I will shout you out.

I was interested, until I checked out your account.

You may also want include other information such as you only have 52 followers, and you use massive amount of tags to get your likes.

So, if you give me a shoutout, I'll most likely not get anything in return.

Well, I tested a shoutout for one person. They got 40 new followers from me in a few minutes.
