Thread: [I want to start watching anime, any recommendations?](#)

Ghetto~~ - March 13, 2013, 8:16 pm

I've never really been that into any anime, the most I've seen of any anime was 10 episodes of Spice and Wolf
I'm just looking for something that would be furry-related, but I'm open to others also
Thanks

I would recommend you check out Boku no pico, it has great reviews on MAL, and on this site, as many members do regularly recommend it.

>furry anime
um
The closest thing is Wolf's Rain, but there's no actual furries...
If you want furries go back to your pony show

Try Omamori Himari if you want something furry :p
