Thread: [? CPA/PPD Bragging Thread ? \[If you fake earnings, you only lie to yourself!\]](#)

Lime Whips - March 14, 2013, 6:27 am

Hello, well this is a thread for all of the CPA/PPD earners on this forum to unite and show screenshots of their payouts, something they bought with their earnings or maybe some daily 600\$ screenshot... all with the sole purpose of bragging and of course to motivate members to start earning...

I'll start first, breaking the ice as usual...:

PS: Faking your earnings = Lying to yourself

1n9i9c7om - March 14, 2013, 9:17 am

Not very much ._.

ndat - March 14, 2013, 9:20 am

Eh only started this month... on the 6th.

Lime Whips - March 14, 2013, 10:23 am

That's nice guys, also I recommend each and everyone of you to first boost your videos with VAGEX, then search on fiverr for high retention views ONLY! Do not fool around with those 30-35k mobile views, they just de-rank your video.

ManUnited - March 14, 2013, 10:25 am

It's still early for me yet, but here is my today's earnings so far:

\$1.72 for 6 days, im new to ppd.

Lime Whips - March 14, 2013, 10:52 am

What PPD is that, BGN? Also Quality > Quantity... but if you have both then it's a killer set.

FileFire it says in the bottom left.

Lime Whips - March 14, 2013, 11:09 am

Hmm I wonder why people don't switch to a CPA network and stop paying % of their earnings to the respective PPD network...

#REAL? - March 14, 2013, 11:12 am

Because PPD Networks are extremely nice and easy:)

At cpa you don't have much offers and you have to optimize your fking offers everyday.

And the cpa networks will take some % too..

I'm at AWM btw:D

Lime Whips - March 14, 2013, 11:34 am

AWM has auto-optimization setting, so you don't have to worry!

Well at AWM you can request increase payouts on offers. They're usually willing to up your margins by 5-10% and match payouts if someone else is paying more. It's a game of inches.

#REAL? - March 14, 2013, 11:08 pm

Lol, yesterday I tried out FI and switched 1 Niche to them, with this Niche I got many clicks on awm but maybe 1-2 Leads per day. On FI i tried it only for 6 hours and got 6!! Downloads! A low AVGCpa but this because I had some indian downloads.

Don't say awm is better, I switch all my niches today to them.

Shanks - March 14, 2013, 11:44 pm

I only get like 0,3 dollar each lead.. also using awm :/

District. - March 14, 2013, 11:51 pm

I've made \$50.00 overall with file ice, \$25 with other networks.

AWM

I started around 2 months ago. Just on Filelce so that I can hit the \$50 mark and cash out. Then I'm gonna be on AWM (mainly) and Filefire.

Just calculated lol already made around \$187 :O

No of course not, they just call it "bad traffic" I don't use the network personally, they have a lot of followers on here and seem to look after them. However, I have read one post on BHW about some member being banned, just outright banned from the network, he created the thread and one of the Admin'S replied on there saying he was banned because they must look out of the advertisers.

Not being funny but why not just remove him from the offer, there just seems to be some rules they get funny about, this compared to the likes of other PPD networks who wont just ban you because of bad traffic.

Just my two cents, it's my right to have an opinion.

I would try to join a different network, you have great earnings but you could be getting a lot more. Try Adworkmedia, Filefire or Foolish! Those usually have better CR rates. And you could maybe edit your site or anything to make it as legit as possible.

They do have some exclusive offers they have to be very protective of. They'd rather be safe and get rid of the 1 bad apple rather than ruining the bunch.

Although I think instead of outright banning the guy just disabling the offers from those advertisers would have sufficed but that's their decision in the end.

You don't even need a website to earn, just putting that out there.

The easiest way you can earn with little fuss is to make a youtube video, in the description put the URL of a mediafire link which you uploaded a notepad file with your link locker URL. Send traffic to your video by ranking it through purchasing views/likes.

It can all be done within 3 hours and you'll be earning money. It shouldn't take long if you know how to code or have your niche file already.
