Thread: [Monster worm, Not activated 24 hours + contacted owner.](#)

Tricorn - March 14, 2013, 7:00 am

Been around 24 hours, Added both monsterworm's skype, PM'd on here.
Says the payment went through but i have had no reply.
what should i do?

.Infinity - March 14, 2013, 7:05 am

Keep waiting? Why even ask such a question? People on here aren't corporations, don't expect a response within 1 business day.

was just wondering I didn't know if there is something else i'm ment to do.

stdio - March 14, 2013, 7:13 am

dude relax, wait some more time.

he might be busy or something, if he does not reply after say 2 more days then goto deal disputes and post your issue there..

Farcast - March 14, 2013, 7:54 am

Man this drives me freaking insane.

I had someone send a payment went to take a dump and came back to three pms.

People in general need to learn to be more patient.

Six Below - March 14, 2013, 7:56 am

Give it another couple of days, Monster Worm is pretty big, probably has a lot of shit todo both on HF, and in real life.

Anyways, I wish you the best of luck.

It is like being in a shop.. you don't drive your customers away because it makes you insane.

You need to keep your buyers satisfied with the product or support or w/e.

Afterall they are paying you and providing you with money..

Guess what, the majority of people that sell items on HF either virtual or physical have actual lives and don't sit in front of their computers all day waiting for PMs. Just because you buy someone from them doesn't enslave them to you, as a seller I operate on my own schedule. While I am online I will help you, if I am not, I'm not going to come home early from class to send you a bin or something.

I'm waiting from weeks a video proof and MSN Contact from Voltios of Monster Worm 3.0: the spreading system IT'S NOT WORKING and the OP is trolling him customers ;)

I'm a customer, but the MW doesn't work.

My opinion: ask a chargeback, the product isn't worth and Voltios is kidding every users that post on the sale thread.

but if i chargeback he might open a scam report..

Maple ?? - March 14, 2013, 8:44 am

This is what you should do.

- 1) Close this thread.
- 2) Log off of HF.
- 3) Go out side and get some fresh air.
- 4) Come back tomorrow.

Farcast - March 14, 2013, 8:45 am

You waited a day, calm your shit down and wait for him to responded, if he doesn't within 48 hours, charge back.

The point is that, at this moment, Monster Worm 3.0 it's not working and since Voltios likes to troll users that post on MW 3.0 sales thread, I THINK it's a scam, and nothing more: I have bought it,

tried and sent to slaves... never worked.

Tricorn - March 14, 2013, 8:52 am

going to chargeback in 24hours if:

Product doesn't work correctly.

Account not activated.

any more negative comments about the program I hear.

Just read the fake vouches [came out everytime some legit users reported that MW wasn't working] in MW 3.0 sales thread.

If it doesn't work I'm sure it is counted as fraud if they describe it to do things then it doesn't.

You or We could get their paypal terminated if we have evidence.

But you never know it could actually work.

cRys?! ???? - March 14, 2013, 8:57 am

chargeback !!

i get 2 pm from 2 users what ask me for fake vouch on this shit thread this is one of the biggest shit here

i think the worm is worth nothing or why ask for vouch ?

chargeback your cash and buy other good stuff here its my tipp

Please edit your post on MW3.0: I was activaed immediatelly, I'm waiting from weeks video proof on MW3.0 spreaders at work [Voltios trolled me: "Sure man, I'm making the video] and then, MSN Contact from Voltios...

P.S. Just take a look to Voltios reputation <https://hackforums.net/reputation.php?uid=1541050> and you'll understand that MW is a scam ;)

Sorry to say _Bolt, you just lost your money. Monster Worm doesn't work. HF takes no action against scammers really so he is just sitting here raking in sales for something that doesn't work.

Trust us on this one, activated or not, I guaranteed you're going to be charging back within 24 hours
- So you might as well do it now.

I can quote: Monster Worm 2.0 / 3.0 / 4.0 it's a scam, nothing more, and CyberPimp and Voltios should be exiled.

I don't care about the money, I have asked a chargeback and informed my Bank on the fraud on my credit card, by Voltios / CyberPimp, they will have problems but my first goal regarding Monster Worm is that I wanna see Voltios / CyberPimp banned since they don't care about HF, HF Members and their customers: totally negative users.

;))

What can i do? I opened the paypal dispute claiming it is not working, He replied back with:
This claim has no place because the software is delivered to the buyer exactly what was agreed to and the software works perfectly. In the purchase agreement the buyer agree to the terms imposed which clearly contemplate that no refunds, that's our policy and we are not selling a tangible good if not the same in our server software. Así recorded the number of uses of our software, we did not record any confidential, only the time that a user runs our software and this particular buyer has been using it very regularly from the time of purchase and has not communicated with us at any time to report a malfunction , which will never do because the software works perfectly since many more people are using incidencia. Dicho no buyer has not replied to our messages to clarify the problem so we have reason to believe they want to take advantage of the complaints system PayPal in order to keep the software and also get their money as we have spent several veces. Por therefore ask PayPal to settle this dispute in our favor because the buyer's claims are all false effect. Anyway the buyer's account will remain active so you can continue to use the software for as long as the license stipulates you paid until PayPal resolve this dispute. Greetings.
