They have to be given out to official reviewers, I suggest getting in touch with them.

I bought this eBook yesterday and it's superb. It has all of the information you need and I've never seen the strategy used by RedZoned before. The amount of work you put into this determines how much you make, so if you need a quick \$20 for something you want to buy you can do use this guide and make it in no time. You can make alot of money from this guide and it's totally white hat and legal. The grammar in this guide is top notch and it cannot be faulted. Overall, this eBook gets a 9/10 from me because nobody's perfect! Thank you for an excellent guide. It was easily worth the money.
