I got scammed by [Burnin'Bob](#) on this Thread <https://hackforums.net/showthread.php?tid=3299338>
Lets go on slowly, I was a normal Member that Time I wasn't very into Hackforums so I thought UB3R's are trusted Members. Well it changed after I saw that UB3R's can be serious Scammers.

I wanted to exchange \$68PP to LR,

Skype Chat Tons of screensots

After 2 Weeks:

<https://puu.sh/2i49Z>

How it all happend,

I was looking for an exchanger, I thought found someone who can do that for me. I looked at his account and he looked trusted for me.

He had like 5 Awards for donating so he was shittin money, now I know where he got that money from.

I added him on Skype and everything went on pretty well till I sent him, he allways had 2 diffrent stories. He was holding the money so he wont get limited and he can't send cause his friend got his LR.

I wasn't hesitating to make an Scam Report, cause his Account looks very trusted and a Scam Report doesn't look good.

Those were almost 2 Weeks now where I am waiting for the LR.

He got some friends that Trash all my Threads, and gang rep me.
Deal with big Caution.

Some more,
He says he didn't receive LR <https://puu.sh/2i4CQ> he didn't even need LR.
My LR History #1 <https://puu.sh/2i4EV>
My LR History #2 <https://puu.sh/2i4FL>

Well Brigadier and Darkwin are Bob's friends I see, I got clear proof's
<https://puu.sh/2iuw5>
I didn't receive LR.

"User did a youtube related service for me. Already complete. Paying him."

Unsure if this is legit, i'm not saying that it isn't, i'm undecided.

IMachavelli - March 15, 2013, 6:11 am

I think you need to show more evidence. Like maybe screenshot of you transferring money and you not receiving any money

Electrode - March 15, 2013, 6:19 am

He sent me the money via account sinx@something.com I wasn't online for a two days due to some issues that is correct then the user chargebacked the payment instead of waiting for me to respond.

Then 2 days ago he removed the chargeback and asked me to send the money to some whole other account which is fishy. I told him I will send him the money to the account he sent it from that is all. Also i told him i only have 48\$ on the account (out of 68\$) and he said "fine send that and we're good"-> That just makes it even shadier.

I told you in the PM I will not risk my account for a chance paypal screws me over.

#YOLO - March 15, 2013, 6:21 am

The Proof's don't say I charged back 2 days later and asked 2 Days later for refund it was 1 and half week ago.

My PP has been limited because of you, If I would chargeback it would be stuck on that acc so I wanted you to send it to other.

I am still accepting a Refund and would close the Dispute, called Paypal and they will keep it up to date, If I show them how its going.

If you don't refund the full amount, it's a scam.

Brigadier - March 15, 2013, 2:46 pm

I don't even know Bob, but I am getting enough information together that will be the end of you 2 scamming members.

Darkwin - March 15, 2013, 5:41 pm

Bob is an pretty legit member and from what i can gather Bob hasn't received your LR payment, So its weird that you have proof yet he hasnt received it.

Think about it, Would an scammer reply on his report and say he hasn't gotten it? Makes no sense to risk his account over pennies also on the LR i don't see his account name.

Also looking at some of the PM's it says he thinks you're fishy and he asks for an refund since he doesn't want any problems...

HQUALITY - March 15, 2013, 9:56 pm

For the record i had negged you prior to this report even being made also just because an person ewhore's doesn't automatically make them an scammer... Your just an idiot! IMO this report isn't legit at all.

So please GTFO

Brigadier - March 16, 2013, 6:13 am

HQUALITY is a multi-accounter and a scammer, if anyone wants proof for him being a multi - shoot me over a pm.

Electrode - March 16, 2013, 10:33 am

User is probably a scammer using stolen paypals or god knows what. Why else would he refuse for me to refund the money to the former paypal and suddenly ask me to send funds to another unverified one...

Also has proofs of other members that he is a multi accounter and a skype impersonator.

cRys??I ???? - March 16, 2013, 12:53 pm

Electrode - *March 19, 2013, 5:35 am*

This report is not valid as you chargbacked before the agreed holding time was over.

This leads me to believe you we're using a stolen paypal. Also why would you wan't me to send the funds to another email.

User is nothing more than a multiaccounter and a scammer.

Glad he got banned from the site.

Hawk Supply Co. - *March 19, 2013, 5:32 pm*

He did the same to me blocked me after I asked him why he sent from diffrent paypals
