Thread: [Monster Worm 3.0: Scammed by ?VoltioS - UID: 1541050 and CyberPimp™ UID: 363058](#)

1. Link to the scammer's profile. This is to prevent confusion if a username change occurs.
2. Link to the thread in question if it exists where you may have been scammed.
3. Search Scam Reports area for any existing threads with the scammer. Search by username and also uid; If uid's are included, it will be easy to find the report.
4. Post any images/screenshots that you can provide as evidence of the scam. Best option is to use the spoiler tags for images.

4. I bought this worm and it looked legit, thought I'd try it out and would spread faster. Funny thing is that the worm doesn't work at all. Users have been requesting proof of the worm being function, he keeps dodging the users and keeps stalling. ?VoltioS wanted to prove that it works over MSN, instead of actually showing the user the functionality of the worm he trolls him. User even asked for vouches on his thread to random people, you can tell by his rep and probably a few reports (or posts) about him.

Picture of him dodging the user and lies about the user not being online:

Thank you for reading, I hope this user will be dealt with. Many users have been deceived including me, and this should come to an end. ?

agreed everyone should be refunded immediately and owner and seller's warned or banned and all threads junked...

he release "v4" today and its the same there is no change what so ever just making a new thread because other one had to many people saying its shit and telling truth so he made a new one to scam more people.

its pretty clear that its been a scam since the beggining he also asks for vouches...

Legit scam report: maybe CyberPimp™ could be added to the scam, since is the seller, but Rameses B is right: I'm Monster Worm 3.0 customer, spreading system never worked, asked many times a video proof and msn contact and ?VoltioS trolled my everytime, in thread ;)

Opening my scam report asap.

Regards

I'll add to this, (too lazy to open a scam report, I'll do it tonight)

Here is him dodging me when I asked him if I can get a refund since my account isn't activated yet.. and his response:

Open your own scam report: maybe someone from the staff will read it :)

Cha0 - March 20, 2013, 12:09 pm

Don't really know what to make of this. I was even considering buying it. Maybe it's a mistake or something we'll see their reply.

negerhek - March 24, 2013, 3:52 am

Why didn't staff take any action against the user or thread ? More people will get scammed..

Seller and supported are ignoring scam report and customers problem: DO NOT BUY, IT DOESN'T WORK and there's no support.

negerhek - March 24, 2013, 4:32 am

If these users aren't dealt with this could actually be a very nice money making method. Scam HackForums members by selling a product that doesn't even work..

You won't even get banned by staff members! Seems promising..

PedroDJ - March 26, 2013, 2:21 am

Thank you all: the scammer was banned and Monster Worm thread deleted :)

Hi CyberPimp™,

thank you for posting here: sorry for you, but I and many other customers had LOST money with this scam.

Now another user bought the source of the worm: if they fix it and make it works, I'll close the DEAL DISPUTES.

I suggest you to check DEEPLY any other tool you wanna sell here, because MW 3.' never worked ;)

Last but not least, it's your fault: you have sold a tool without testing it :)
