I have bought Monster Worm 2.0 [then updated to 3.0 and now to 4.0] from CyberPimp™ and ?VoltioS: asked so many times support in sales thread since the SPREADERS doesn't work.

?VoltioS trolled me and kidded me regarding video proof and MSN contact: added since 3 weeks but never seen online.

Picture of him dodging me and lies about I'm not being online:

People complaining about the functionality of the worm:

CyberPimp™ and ?VoltioS should be banned, since ?VoltioS principally, is on HF to troll / kid and stole money from the users.

I don't care about the money, I have bought Monster Worm when was released here, without waiting: my fault, but this don't authorize CyberPimp and Voltios to sell a FAKE WORM and keep on trolling customers, publically, in sales thread.

That's what you get for buying a "worm" off HF by now you should know 90% of the MP's "products" are copy and pasted crap.

And I though selling via proxy is not allowed?

I sould know, but the real problem is that CyberPimp and Voltios make here whatever they want: they scam, they troll, they stole.

If you really want a worm I could make you a basic worm and rootkit for freeit would be only usermode though.

Do not buy anything from

?VoltioS <https://hackforums.net/member.php?action=profile&uid=1541050>

and

CyberPimp™ <https://hackforums.net/member.php?action=profile&uid=363058>

The funny thing is that the thread of Monster Worm 4.0 was deleted: another proof of scam.

PedroDJ - March 23, 2013, 4:03 am

The funny things is that neither CyberPimp or Voltios haven't answered to any scam reports: compliments, both users keep on selling here and trolling users :)

PedroDJ - March 25, 2013, 11:36 am

Another evidence on how ?VoltioS takes him customers seriously!

Hi CyberPimp™,

thank you for posting here: sorry for you, but I and many other customers had LOST money with this scam.

Now another user bought the source of the worm: if they fix it and make it works, I'll close the DEAL DISPUTES.

I suggest you to check DEEPLY any other tool you wanna sell here, because MW 3.' never worked ;)

Well, Reputation Abuse: Reboot.X™, Affiliate opened.

I can't understand how is it possible that an user went scammed, trolled and then reputation abused... unbelievable.

Lost money, lost patience, lost time.
