Thread: [Crime City application not working with iAP Cracker](#)

W R T - March 19, 2013, 2:37 pm

Hey HF,

Well I have Jailbroken my iPod 3rd Generation and have Cydia and everything (All works fine) Only thing is, I downloaded this package from Cydia called iAP Cracker...

Now what the iAP cracker does is allows you to get all in-game purchases free, It works on all my other games EXCEPT Crime City... It's very annoying. What it does is I buy something like \$2,000,000 and it shows my money going up but then it goes down to what I previously had before the purchase...

Does anyone else have the same issue or anything like it?

Yes, I have un-installed the application and re-installed also did the same with the package from Cydia.

Any help / suggestions are appreciated.

Thanks,
Mike

You think that'll work? Alright I'll try it.

Abuser™ - March 19, 2013, 3:26 pm

Note that iAP Cracker and iAP Free don't work on all apps. If its server side it will not work. Unless iAP Free has a plugin for it of course.

For the plug in, Would I just search on the iAP Free application that it installed for a Crime City plug in?

Are you using iOS 6.1? I can't get it to work either, I don't think they got it to work yet.

I'm using iOS 5.1.1, Don't know why it won't work though.

Where did you get this app? I'm not finding it on Cydia.

It's a game on the App Store.

Have you installed the repo for it?

Macklemore' - March 19, 2013, 10:12 pm

It depends on what iOS you are running. Just search "iAP Cracker + iOS" and follow the instructions.

Thanks mate, found it. Appreciate it!
