Thread: [BR3TT ~ Minecraft Thread Design \[FREE\]](#)

VirtualFrost - March 20, 2013, 12:29 am

I've created up a free Thread Design for anyone who needs a free server design for their servers as I've seen quite a few just made up in text! .psd up for download, if you need any help with editing just let me know!

You'll need the font "Minecraft z2font" to edit the text unless you have a similar font or wish to use a different font! Enjoy!

I'll check this out :D

Probably won't use it haha.

Edit----

Looks pretty good, Now only if I owned an MC server, haha

Thanks for the feedback! Would be happy with both people rating it and downloading it, it doesn't matter too much!
