Thread: [\[TuT\] How to spread and infect people HOT HOT HOT!!!!!!!!!!!!!!\[TuT\]](#)

Limboland™ - March 22, 2013, 12:53 pm

Here a TuT how to spread and infect people .

You can spread Java Drive By or RAT what you want.

This is one of my methods ,it's very easy but very successfull.

In this video I use METASPLOIT

<http://www.metasploit.com/>

Link Encoder and iFrame Creator Tool

<http://Link Encoder and iFrame Creator Tool>

Url Shortener

<http://hyv.es/api/?url=>

It's a good video for N00bs (as me)

--WATCH--

Thanks and enjoyEasiest way to get a hot chick? Love it!

Burnzy - *March 22, 2013, 4:50 pm*

think i've seen a method already, but really works, would be good to have silent jdb tho
