Thread: [Crush Stalker](#)

**0xBB** - March 23, 2013, 2:14 am

Hi everyone , I've been messing around a little while I can find a good scanner for my crypter and I came out with this idea. A crush stalker that advice you whenever the person add something (even pics) or someone do it on her/his wall ?

Its kinda sketchy but it work perfectly, I don't think ill push it further (as fancy and beep like crazy when your crush enter in "relation ship" ? )

So there is a preview of it working :

If you guys wonder why my facebook look weird, it's because I used add blocker to hide my stuff ?

There is the project : [Mediafire](#)

Hope you all enjoy !! ?
