Thread: [File Ice Mobile Pin To Pass Surveys](#)

Natas - March 24, 2013, 5:59 pm

So I been using file ice for Mabey a week or two now.
Ive tried other PPD sites but I got tired of getting
26 cents per download for people in the US.

While this past week of me using File Ice I constantly have people telling me
that they cant get passed the survey because all the surveys require a mobile pin.

Any one else experience this ?

I'd say that 80% of the offers are PIN Submits.

Only because they are foreigners. File Ice switches the offers out often and especially here lately
due to people using copyrighted stuff.

Offers requiring a pin pay more anyways so I'd just suck it up like the rest of us and keep trucking.

It sounds as if you're considering doing your own surveys to find out.

If so, that's one way to find out. But, I do believe once the pin is entered, you will be charged.
Depending on the users browser, the download will unlock or not unlock. By that I mean some
people use AdBlocker and other plugins that blocks the download and therefore ruins everything.

No I was just asking that cause the way I was spreading a PPD file people were contacting me over
youtube telling me that they dont have a phone and stuff and I was just wondering lol.

Thanks for the information tho I appreciate it !
