But you don't need to portforward in order to use a Keylogger.

Welcome. Looking for a keylogger from sending passwords by email. It would be nice if you sent a link to download and how to configure it.

ninjasoar - March 26, 2013, 12:41 am

Hiya, I'm new to keyloggers, can you help me set-up my first one. Sent you a skype request..

Hi Vizxo, I am new to deploying keyloggers. I cant send PMs, do you have skype? I desperately need a slave

Ladygaga89 - April 5, 2013, 12:30 pm

First, sorry for bad English, use google translator. I can not send pm, so I tried to add you on skype. But the time difference probably work against me to get you there. My problem is that I can not find any place to download a keylogger. 've heard that skyneon should be fine, but do not know if we Norwegians have anything bearing on this. Do you have any advice / link to me??
