Thread: [Free4All Captcha Sniper X3 Fully cracked bypass 90% Of captcha automatically!](#)

D31m0s - March 25, 2013, 4:11 pm

Stop waisting your time and hard-earned money on captcha solving services that are slow, inaccurate and costly. Captcha Sniper Crack solves captchas faster and without having to pay per captcha.

Solve all your Captchas FREE now...

Captcha Sniper Crack intercepts calls made to the popular captcha solving service decaptcha via HTTP post (API implementation and other services is coming soon). Captcha Sniper Crack solves the captcha and returns the answer to the calling software and also includes a command line interface. Captcha Sniper Crack currently supports the following platforms and their associated captchas:

Whats new in Captcha Sniper X3

Added literally hundreds of user defined types based on filename conventions, with custom algos for each .. feel free to tweak this if you want using the new optimizer feature in CDK. Also an important note here: Im working on a cloud based update system so that its easier to get you these datasets ... as we will be adding them at a dizzying pace moving forward :)

Captcha Sniper now uses the ImagMagick COM dll instead of the exe. This eliminates quite a bit of the overhead and speeds most captha algos between 20-50%. Ultimately, there will be no I/O for a solve ~ resulting in uber fast and efficient processsing :)

More than 30 mappings for named captcha types to existing algorithms (both hard and soft).

Optimize in CDK ~ this feature cycles through your algorithm trying different combinations of scale and thresholds to find the highest success rate. This has been applied to nearly every algorithm .. resulting in an across the board successful solve rate.

Fuzzy captcha matching for named types where sizes dont match in laymans terms ... for example you can now add a single type in CDK of different sizes and CS will match based on the filename (platform in GSA) but the sizes dont have to match.

Auto-detection on some equation (math) captcha types.

Copy captcha types in CDK.

Import and Group by Name and Size from the unknown folder - CDK (for GSA labeled captchas)

Various GUI elements fixed in CDK.

Would be nice if you can post virus scan in here too.
Thank you.

DarkComet™ - March 25, 2013, 5:57 pm

This would be certainly useful if it was legit, hopefully it is :)
Thanks for the share OP, i'll go ahead and scan this. ?

Edit: Lul, the download required a captcha; would be a good time to use that program xD

I don't know the password for the rar file :/

D31m0s - March 26, 2013, 3:00 am

This is a hackers forum, no need for an scan. If you don't trust it don't download it.

[img]<http://www.imgghost.nl/download/proof.PNG>[/img]

For password just read the damn readme.

DejaVu Acer - March 2, 2014, 6:56 pm

Is something wrong with the download link? It's just taking me to an uploading site...

Your link does not work.

Sincerely,

Members only

METALSLUG - March 3, 2014, 1:50 am

Yeah broken, man i really wish to have this it would be awesome!

R4vPL - March 3, 2014, 11:31 am

Thanks for sharing, but link doesn't work : /

swivel1983 - March 3, 2014, 11:43 am

the link doesn't work, it's just an adf.ly link

dkoder - March 3, 2014, 11:37 pm

link is not working..... resolve this issue..pls

gbk668 - March 4, 2014, 1:04 am

link dead !!! #35 characters shorter

Shaq232 - March 4, 2014, 2:12 am

fix the link please, or hmu with a pm. thanks

pvdpepo1 - March 5, 2014, 10:33 am

link dont working damn :(can you fix it please

testyy - March 5, 2014, 10:42 am

You guys are so smart. He just tells us that it is a free captcha sniper to get everyone click his adfly link. If the link was broken it would give an error I think.

makobec - August 13, 2018, 11:35 pm

link is still broken, please fix it

S????i - August 13, 2018, 11:37 pm

Literally a post from 2013.

Stop grave digging.

The user hasn't even logged on for over a year.
