Thread: [Best BLACKSHADE Crypter](#)

tutu24121991 - March 29, 2013, 2:42 am

hello hackforums,

can anyone tell me which is the best free crypter for blackshade server file.

..IS AegisCrypter2.1 here in HF a good one.it gives me 7/37 for my file.

??

please suggest a good free crypter to get start with...thanks?????

Precisio? - March 29, 2013, 2:58 am

Free crypters are not FUD or will be FUD for short time. I suggest you to spend some money and buy a good crypter.

Check my signature...

Grizzpo - March 29, 2013, 4:47 am

I have a 1/37 detection and is written in c++.

I am not gonna spend any time on this crypter. Let me know.

bhoppa - March 29, 2013, 9:16 am

The owner and seller of blackshades recommends [xProtect](#) to use with blackshades.

d0to - March 29, 2013, 9:23 am

You will not get a good crypter for free, unless you make it yourself or someone is kind enough to do so for you.

I can give you a copy of a source I have which is 2/35 FUD. It is coded in c#. Let me know. you can save money and make money possibly.

Carbons - March 29, 2013, 10:23 am

Take a look at FileProtector, you can click my signature ?

Vigilante - March 29, 2013, 11:29 am

[FileProtector](#) is a great crypter. No dependencies and has a good execution rate.

Good luck with your RAT career.

?

qbertdabny - April 10, 2013, 1:42 am

Guys what about dark eye? what do you think of it honestly?

well im using xProtect...FUD wise its great I recommend it, but the thing is it lacks the option of persistency like those extra options in Sheikh.

you the know the options that make your RAT stick into the victims computer.

?

and the owner just got his account permanatly banned for backdooring it

qbertdabny - April 10, 2013, 10:15 pm

Thanks for informing me @kalandershihabrocker

bhoppa - April 11, 2013, 9:37 am

[xProtect is the best crypter](#) for BS. The seller and coder of Blackshades recommends xProtect.

tutu24121991 - June 1, 2013, 9:45 pm

thanks ti u all for the posts...i will try it

????????? - June 1, 2013, 11:51 pm

I am offering FUD crypts for \$3.00 a crypt.

If you somehow, cant afford that, I am willing to accept trades.
