Thread: [Cute Charmander Drawing \[With my 3DS\]](#)

Actus Reas - March 29, 2013, 5:10 am

Drew this with my 3DS I recently got.

Please note; On my resolution it had no issues such as missing colors! [\(Click to View\)](#)

As well as 'paradise':

The reason charmander isnt on my colorslive account is that it is not finished but i still want opinions!

Eh, I went off the Pokemon after Heart Gold, I guess im an 'oldie' in pokemon games, cant stand the newer ones.

But there is definately alot more awesome games then just pokemon dude, you should get it sooner!

I'm interested in only competitive play for Pokemon. Not a fan of the story anymore.
