Thread: [Complete Detailed Monetizing Guide - \\$20-\\$35 Daily](#)

It is not written by me. I have not tested this yet, but I am willing to. There you go! :)

Quote:1. Sign up to ezyBux.net

2. Login and navigate to the earn points bar => RadiumOne

3. Find all the offers that give points when you sign up to a site.

4. Once you complete all the register offers on RadiumOne you should have at least \$5-\$10.

5. After they're all done, find the offers that require you to connect with an app on Facebook and do those.

6. Move on the SuperRewards and complete the signup offers for that. Then complete the Facebook offers there like before.

7. Rinse and repeat the above with PaymentWall.

8. Now that all those are done, do some of the easier surveys for each. Then check back each day for new easy offers.

9. Repeat this guide everyday to make a consistent \$20-\$35/day! Make sure to opt into the contests on ezyBux to maximise earnings.

10. Spread this guide around the Internet and replace the referral code in step one with your own.

When I go to RadiumOne, there aren't any offers for me to complete.

It is a lot of effort for little gain though. It's a good method if you have lots of spare time and can be bothered though. Fairly basic but well described guide. Thanks for the contribution.
