Why would you buy photoshop ? o.o
you sir, are crazy

Sandeman - April 1, 2013, 9:34 pm

Why would you buy when you can just pirate?
Arrr!

Our ISP tracks if your doing illegal activity. They send you a warning, then if you do it again they give you a fine. I think its \$100,000 or \$10,000 im not sure.
I torrent/Illegal download everyday.. No warning..

Probably depends on your ISP then, in Norway they have a system like that but I don't think the ISP's gives a shit
