Thread: [Adwork media or Adscend Media? And what is the difference](#)

Mr. Mischief - March 30, 2013, 12:14 pm

What is the difference between those two? And which one is best to go with?

Thanks :)

Most people on HF use AdWorkMedia. AWM is just great!
I've heard that it's hard to get accepted in Adscend Media.

Adworkmedia is specially based on Content locking, and other locking they mainly prefer those tools to generate money they are specialist Incentive Offers and Traffic

Adscendmedia is also have Good locking Tools

but they also have some non-incentive campaigns with high pay rates which can be use by CPC,PPV,PPC etc

Some people say that Adscendmedia have higher paying offers than AWM and AWM also take offers from them.. so maybe adscendmedia is better but most people here use AWM.

Or you could just use File Ice like me and enjoy \$1.50+ average downloads. I make lots of \$\$\$ with FI and never had a complaint.

I don't really want to make the user go download all of this, it will lose a lot of money.

AdScend Media has more offers than AdWork Media, but AdWork Media has more tools that are ready to be used, if you're going for AdScend Media you have to do everything on your own.

I got accepted when I didn't know anything about CPA a year or two back. Personally, I like the simplicity and layout of AWM better.

1. Adscendmedia has more offers than AWM.
2. Adscendmedia pays more than most of the offers also on AWM.
3. Adscendmedia allows ONLY ORIGINAL and REAL content, requires a site with TLD to signup.

4. Most of the PPDs, including Filelce use Adscendmedia.

Yeah, they accept people very selectively.
I got in with my first attempt.

I can get you accepted, but for a small fee.

Adscendmedia pay a bit more, but are easier to get banned from. also they are an arse to get into.
