Thread: [\[Free\] Crypter Stub Generator \[Generator\]](#)

0dayleet - March 27, 2010, 4:46 pm

Simple RunPE Stub generator I made.

It generate Stub in Visual Basic 6 for your crypter.

(Please put the folder ' GeneratedStub ' in the same directory as the Stub Generator. All Stub will be created there.)

Avira AntiVir - TR/Dropper.Gen

Dropper.Gen = It's cause by the little size of the file.

It's not infected.

You have to compile it using VB6

EDIT: @Julie: Are you making any modifications to the properties / code before you compile?

SAD.KHAN - April 5, 2010, 9:46 am

hmmmmmmm nice prog julie keep it up

Oday exploit - April 5, 2010, 10:21 am

No offense mate but.... the stub generator is not so good cause :

- 1.I could decompile the stub very very easy
- 2.The runpe is detected
