Thread: [APG's Netflix Account Checking/Scanning Service | MOST TRUSTED | VOUCHED |](#)

adampelletgun - April 5, 2013, 2:36 pm

Want to check the accounts you bought? Want to start your own giveaway/shop?

You've come to the right place!

I am offering a free service for all HF members who have Netflix accounts that they need to be verified.

Basically I can scan your account list for working accounts free of charge!

I will send you the results back with fully functional accounts only.

None of the accounts you send me are shared with anyone. All accounts are securely deleted using the US DoD 5220.22-M (8-306,/E, C & E) method. None of the accounts are used by me either.

If I reply to your PM with "Dead list" then it means I scanned 30-40 accounts and I didn't get any valid accounts.

There is no limit of accounts that I can scan. If you wish me to scan a big list then you should upload it on [Pastebin](#) or [Mediafire](#).

Please use the following PM code to send in your requests.

[Netflix](#) - I will send back all the working paid accounts. No expired or dead accounts.

Double A - August 19, 2014, 8:16 am

I have a question APG, does the scanner weed out those accounts that were trial accounts? Like when it logs in it says to restart membership? It seems when i updated my list and used a checker to check them a bunch of them were trial accounts and the checker mixed them up so I cant really delete them without deleting working accounts with subscriptions.....

hey man i sent you a PM and the link to the accounts..... you were online as well...
