Thread: [How to make \\$200 - \\$250 dollar in a short time?](#)

Audience - April 9, 2013, 1:59 pm

Hello,

first, I'm new to hacking and monetizing but I want to learn how to earn money online.

I'm in need of \$200 - \$250 as fast as possible. Someone offered me a great computer for \$230. (I know him since over 10 years, the computer is worth more than \$800).

Does anyone have tips for me which money making methods are serious and work? I don't care if I have to do much to get the money, I just need it fast.

I would appreciate it if some of you could help me.

Regards,
Audience

Are you looking for legal or illegal forms of monetizing \$230?

I don't care. I prefer legal stuff, but if it's illegal, it's okay too.
