Thread: [Selling Domains - Social Domains](#)

Aeowulf - April 9, 2013, 4:28 pm

I have:

Socialforever.org - Expires October 2013 - Minimum: Best Offer

Socialblast.net - Expires March 2014 - Minimum: \$13 then Best Offer

Registered on Namecheap. Open to offers. Payment via Paypal.

Looking to get rid of them, could be used for any number of social-geared websites. Socialforever was actually used as a social exchange site about a year ago.

If interested reply and/or PM me. Thanks.
