Thread: [Starting a PPD download service.](#)

Trapcode - April 10, 2013, 11:07 pm

Hey People,

I am planning to start a PPD files downloading service for those who are unable to download file ?

Can You tell me an ideal price for this. ?

Thank You ?

im pretty sure youd have to do it for free, you can already pay to bypass the surveys anyway

\$1 per download would be a good price. I would suggest you to charge no more than \$1.

\$1 is a reasonable price for PPD.

Best of luck starting your PPD business.

Thank You for support but I think very less people will buy for \$1 ?

Anyways, Thanks ?

Anywhere from \$0.50 to \$1.00 should be a good price.

Good luck with sales.

It depends on where you are from. If your from the US charge .30-50 cents per download. If you are from anywhere else I would recommend .30 per download. If you are from France charge \$5-10.

My idea is to provide service to those who are not able to download surveys. You will not be able to earn much from my leads .
