Hack Forums*

Learn yourself. Start with XSS. SQLI.

wrong section, put it request for hacking.

Oh my goodness. Learn to speak english.

itsmemario - April 13, 2013, 9:16 pm

Whats with all the people with 1-2, Post telling him to, Learn yourself, And copy and paste what other people say lol.

This is the wrong section, If you request someone to try and hack it, And maybe offer some \$ For someone to hack it. Next time just think where to put threads, I think this belongs in Request for hacking.

Why would you want the admin login to that site?
