This user, scammed me cold, out of \$95 lr

EDIT: look through his rep and his account etc..he has alot of past links to carding and fruadulent paypal activities and things of that sort, plus his 28 usernames was fraud, this user really deserves a ban.

I really dont understand how he scammed me the way he did, it was extremely heartless, seeing as i was telling him beforehand how this money was buying me food and gear, for my new life of traveling..

honestly he's a real douche...

i should have seen it coming but, honestly i was desperate to get this money because i need this food and gear soon because i have to leave my current situation asap

thats his profile, he has had 28 username changes...

heres a previous scam report: <https://hackforums.net/showthread.php?tid=1411769>

i only found it because it was linked on his rep, he may have more but he has 28 username changes so i didnt take the liberty of searching very long...

heres the proof, this is him telling me he wants to deal etc..

Spoiler [\(Click to View\)](#)

heres the whole convo: Spoiler [\(Click to View\)](#)

and heres proof his skype is what he pm'ed me it was: Spoiler [\(Click to View\)](#)

then it moved to skype: (i know i come off as kind of faggy talking about my api etc.. but i just wanted to make sure he didnt intend to scam me.

also, this skype convo is all from last night.

Spoiler [\(Click to View\)](#)

then here, i asked him to go on skype and screenshare the order, which he did and it was placed..but he has now canceled the order, or didnt have the correct funds to begin with.

Spoiler [\(Click to View\)](#)

then me and him making small talk i guess, after this i dont understand how he could scam me, hes a real dick.

Spoiler [\(Click to View\)](#)

then now i am starting to realize this was probably a scam, i went for a 5 mile jog, and came back a few hours later, and he is set to appear offline. so i keep messaging him on skype

Spoiler [\(Click to View\)](#)

so i tell him its obvious to me hes not really offline because all my messages are going through, and i can still get a resolve feedback from his skype. and i threaten him again, with his ip saying i will boot him if he doesnt respond: Spoiler [\(Click to View\)](#)

and before anyone is like omg against the rules to boot hf members, i never booted him i just threatened to.

my final words to him on skype: Spoiler [\(Click to View\)](#)

i then tweeted him: Spoiler [\(Click to View\)](#)

i got no response, and then i proceeded to call him over and over again on skype today while it said he was online, i repeatedly called him and messaged him and without reply he then set it to appear offline, while my messages still go through so hes obviously online.

also, i pm'ed him on hf telling him to send my my lr back and he went online, read it and ignored it. i shouldnt have trusted a kid with my money.

I will close this if he sends me my gift code or my money back!

Proof that I bought & emailed him the amazon gift card.

Spoiler [\(Click to View\)](#)

This user also likes to hit me offline every time I log into skype which is why I have not responded there.

No idea what this kid's problem is.

what the hell are you talking about? i haven't once hit you offline!

i even told you that im not going to because it would render my scam report invalid!

and that is not proof of anything! you already showed me that, i dont have my money you are 100%

lying!

Also, even if i had booted you offline, why the fuck would i have done that if you didnt scam me out of \$95, just think about that, if i am trying so desperately to contact you on skype why the fuck would i make you offline

also why did you scratch out the order id

He ordered it and then canceled the order.

Looks pretty legit. Hope this gets resolved.

Calif0rnication - April 13, 2013, 5:14 pm

Legit scam report. He charged back the order of the gift-card.

Hope you can get your money back OP.

Pacivility - April 13, 2013, 6:47 pm

Thanks guys, i hope i get my money back aswell, and he claims to not talk to me on skype because im booting him, when that is so false because all i want to do is talk to him to reolve this but he wont talk to me, he doesn't respond to my pm's on hf either.

Well, I didn't think he would scam me either, he seemed nice, but he sure did, and now i'm down \$95 LibertyReserve, and he wont even reply to me.

Yes, so do I, but i have come to the realization that im probably not getting it back now that i look back into his previous threads were he is desperate for like \$10 paypal, based off of that, im sure he has spent my money and has no way of making any money back to pay me.
