Thread: [Charny Autotyper \[v1.1\]](#)

**Charny** - March 29, 2010, 4:00 pm

Charny Autotyper is an advanced autotyper.

Features :

- You can set the interval between sentences
- You can change the key that is pressed after each sentence
- Load/Save a sentences list
- And much more!

Screenshots :

If the sentence isn't checked, it won't be typed.

Not now, maybe later and thanks ?

**Tarik\_95** - *March 30, 2010, 8:33 am*

Hehe sure :D

Uhm, is this like the other Autotalkers that you can't choose at what site / client you want it to spam, or it does everywhere? :S

Seems pretty good mate, judging by what you've described. I'll be downloading and putting it to the test soon.

I shall provide feedback on it's functionality.

Good work :)
