?Adam? - April 13, 2013, 10:18 pm

Hey guys, I bought a hostgator pack today, and paid an extra 15 bucks for their ebook on how to SEO. Everything you need to know about SEO.

It's actually from a company named 'SEO Gears'

I don't know about you, but 15 dollars is a ton for me, so I really hope it's worth it for you

I will post the ebook here with no strings attached.

"We usually say "anyone can do SEO!!!" I believe this is a misleading information. It's a nice book, but it's also too obscure for the SEO professionals, which are focusing on real tasks and analysing small details and facts that affects search engine's algorithms. Also, I believe this book could be shortened into 2 pages book after throwing out superfluous content :)))
