IMO: In my opinion, this was an awesome Anime series! The beginning was a little tough to understand, but as the show drew on you began to ask many questions, in which you could never completely be sure of your answer and it always kept you on the edge of your seat. This Anime is PERFECT for those who are interested in Mystery, Drama, and Action with a side of some good old comic relief. This Anime is fairly short with only 11 episodes (less than the average minimum of 13 for a full Anime season), but with the animators' free time they put their extra time into making the scenes seem as realistic as possible! In just about every scene, 3D modeling effects are used to make characters, vehicles, and every other main focal points in scenes three dimensional which makes this series a really nice eye candy. Though of all these things, all Anime Otakus who are strongly into passionate, drawn out, heart pounding love scenes should STAY AWAY! Do not be fooled by the cute main characters, for though they seem to be an awesome couple (and they would and hope they would be), you will find barely any couple development in this series!

*(If your wanting to watch this movie and DON'T want to be spoiled, then don't open this spoiler! If you are one of these Anime Otakus that I have described and want to see why I feel this way, then click it!)

Spoiler ([Click to View](#)) They only kiss one time, and hug like, 3 times! They could have done so much with these characters, they should make an entire love story Anime reusing these characters... it would be great!

OVERALL REVIEW: For Mystery, Drama, and Action, be my guest. For a passionate love story, not so much.

RATING: 9/10 for the fans it was aimed towards.

Reason For Edit: I went to post it the first time with a poll, and the connection reset. Clicked the back button and resent the post, and it said I already did. -Adding Poll

Your welcome! I just finished it like 30 minutes ago, thought I would put this thread up. What compelled me most to put this thread up is my disappointment in how cute these characters were, and how awful the love story was! ?

EDIT: I finished it so quick I didn't even have to put it on MyAnimeList.net >.>
