Hey! I'm releasing my newest autotyper to all HF!

About:

ZAT V4 Is better and faster then ever! Got four options now Slow,Medium,Fast,and Super Fast

Is this the final version?

No! I will try my best to keep my Autotypers going just need things to add if anyone would like to suggest some please PM me!

Where Can I Download?

I see your getting better with coding in VB. I hope to get there, just not really into coding yet. Well this looks nice, i might try it out.

You could make it look more HQ by adding a drop down options. Other than making a million buttons. Keep up the good work!
