Thread: [-B- BTC/LTC | -H-LR](#)

Theft - April 15, 2013, 9:20 pm

Well from what I see now the market is crashing yet again.

I'm looking to buy a some amount of bitcoins right now, I have \$50 LR, I can get a little bit more to buy a full BTC if needed.

I never go first but I am open to using a trusted middleman.

Please post or PM me your offer.

Also buying 27 LTC for \$50 ?
