Hi all, was going to my emails and came across this deal being hosted by MSN:

http://freeskypecredit.tech.uk.msn.com/?ocid=MSNHP_SLIDE_18

I said it was to contact my brother, then download and a .exe comes up. Open this, fill in your email, and it will automatically change your homepage to MSN. Then a voucher code comes up. Redeem this for 60 minutes of free skype calls!

This is my first Shopping Deals thread, so hope you all enjoyed it!

Looked through it all, this only works for those in the UK.

Small print says:

Voucher must be redeemed by August 31, 2013.

I'm therefore assuming it must still work :3 I'll test mine to be sure

That's how long you have to redeem the code. That doesn't mean they'll have codes to give out until that date.

Ironrunner - April 21, 2013, 12:05 pm

How can i get codes if i am not in UK? please help in this matter.

Kayy - April 21, 2013, 4:10 pm

WazzleHD - April 22, 2013, 8:29 am

Wow, this is working again.

I did it about a month a go and got about £5 credit.

Here's my unused code: SKYPE-NF6MD-V6PKA-CMR6F-64PRF

You can only use 5 per account ://

Ecstasy X - April 22, 2013, 10:06 pm

Guys stop posting it doesn't work and read other peoples posts, you have to be in the UK or your going to get the 404 error message which is what I keep getting since I'm in Canada, you could try using a UK Vpn and then redeeming the code, it'll probably work.

OzTech - April 23, 2013, 4:57 am

Thanks!

I'll try and get you one, will let you know shortly if I have been successful.

NEWS FLASH! lul

All UK/N.Ireland users (or anyone else it worked for) if you have access to another computer using the same internet, that will work to get another code.

You're welcome. To get more than one, just change your Mac Address and then download it again, works fine.

I've had about 15 codes now. (Remember 5 per account - Took me 45 minutes with Skype support for them to realise this.)

Monstercat - April 26, 2013, 7:05 pm
