I need this photo edited, have it in like black and white or something, with some cool blurr to it, just do what you like with it, no text on it.

Feel free to edit it how ever you want it, just no text, thanks heaps!

What exactly do you mean by color blur?

I kinda get a picture of what you mean but, where?

Here's my attempt:

I selected your shirt, made everything else black and white, and then brought out the blue color.
