Thread: [Free FUD or UD crypter or Free FUD Service For Darkcomet](#)

ProHacker98 - April 23, 2013, 3:45 am

Hi HF,

Nobody seems to reply my previous threads I posted for help ? Anyways today I need a Free FUD or UD crypter! Mainly I need to bypass the scantime and the runtime of NOD32! I have got 3 files(Darkcomet Servers) to crypt if even somebody can offer me a free FUD Multiple Files Crypting service with runtime and scantime bypass! I would be really grateful to you! I don't have money to buy a crypter nor pay for the service! I am student! And I really need to crypt all those 3 files! Thanks in advance ?

Best Regards,
ProHacker98

I would clearly get BytesProtector.

ProHacker98 - April 23, 2013, 9:16 am

I can't afford it! Can somebody tell me name of any free crypters?

chestosneakoinc - April 23, 2013, 9:25 am

Free Crypters are not very Fud. Your gonna have to buy one.

BoomShot - April 23, 2013, 9:36 am

You're not going to find a high quality free crypter, there's too many people who ruin it for the others.

I suggest you purchase a crypter.

Jargon - April 23, 2013, 9:42 am

You could give Bo2 crypter a shot - it's worked for me.

ProHacker98 - April 23, 2013, 9:44 am

All I need to do is to bypass mainly NOD32 runtime and scantime! Doesn't any Free Crypter Does that? It doesn't have to be Completely FUD!

Kilomna - April 23, 2013, 4:49 pm

This is pretty hard to find a free fud crypter...
