Too bad that the img-Tags are disabled :P

Anyways, I got a vouch copy.

To be honest with you, I'm a noob at e-Whoring. I asked him for a vouch copy after he told me that he is selling that because I want to learn it.

I think this will really help me getting started with e-Whoring, he explained how to manipulate persons to trust you very good, and this is the key in e-whoring.

Manipulate them to believe you and give you money.

I haven't tried this method yet, but it sounds very nice and I'm sure that I can make some good money with it! GLWS!

Krew - April 24, 2013, 12:42 pm

Hello! My name is Krew and I will be reviewing your e-book today! Please keep in mind that this is my strict opinion on this e-book and may vary depending on the reader.

Quality

The quality of this ebook is good. The author explained his methods very well, without you having to read 20 paragraphs.

Ease of use:

The method may be challenging for those who are complete new to the internet, but the author does explain very well on how to start.

Layout:

The layout of this eBook is very good. The font is very easy to read on the white background and the font is a good size. The author include various links and pictures to help out members which is very good also.

Grammar:

The grammar is pretty decent. I did find an error that should of been fixed but overall the grammar of this eBook is pretty good. After reading this eBook I did not find any spelling errors it was mostly just grammatical errors.

Originality:

This eBook is pretty original. There are many E-Whoring methods but this one is unique because the author put in his own tips and tricks which is very helpful.

Good luck with sales!

VOUCH FOR Calif0rnication

Looks really nice, tho I would never consider buying this. But it might be helpful to a lot of members (Who doesn't know how to eWhore) Also the lifetime support sounds very handy for "newbies" at eWhoring. Overall I'll give this 5/10, I didn't read the book. But in my opinion 30\$ to much for me to spend on a method I probably already know. But I would recomment this for people who isn't well know'n in eWhoring.

I also took the time to check on the users background. The dude seems legit. So I would trust him, if I choosed to buy his product.

Always remember that any deals you make on HF, is on your own responsibility
