Thread: [Infinity Crypter vs. Cube Crypter vs. Data Protector - Opinions?](#)

?Robocope - April 23, 2013, 3:50 pm

So which of these is the best. Please rate accordingly to FUDness, not necessarily features. Mostly just FUDness and its length of FUDness and the amount of time the owners updates it. Thank you.

meltos - May 12, 2013, 8:46 am

Data protector is the best as i know

DeadRoute - May 12, 2013, 9:20 am

(May 12, 2013 08:46 AM)meltos Wrote: [\[CITE\]](#) Data protector is the best as i know

Well data protector is great but one thing i personally don't like about it as it has a .net dependency no bad blood to the author though just one thing hope it will be recoded to a native language.

?Robocope - May 12, 2013, 10:46 am

I'm currently using Cube crypter and its has really nice for FUD'ness but i like infinity crypter with all the options and stuff it has

JiiN - May 12, 2013, 12:37 pm

Take Data Protector if you don't want loose your money.

It will be your best choice, I had it during 45 days and I can tell you that I have nothing wrong to say about it

?nonymous - May 12, 2013, 1:41 pm

I would without doubt go with Data Protector as well. You won't regret the purchase.

?Robocope - May 12, 2013, 1:43 pm

I would but he probably wouldnt accept paypal from me

Ganzul - May 12, 2013, 2:57 pm

For my opinion, for me data protector is the best crypter fud, nosferatus is an awesome Guy !

?Robocope - May 12, 2013, 5:43 pm

Hmmm, after my subscription is run out of cube i think ill invest in data :P

evin7 - May 13, 2013, 9:38 pm

Data protector hasn't been FUD for the pasted month , its currently 4/46

JiiN - May 14, 2013, 3:44 am

(May 13, 2013 09:38 PM)evin7 Wrote: [\[CITE\]](#) Data protector hasn't been FUD for the pasted month , its currently 4/46

It's because you are an idiot that's all.

Brandyn - May 17, 2013, 7:21 pm

I've been trying to contact Cube Crypter support or anyone that can help me with it for days now. I'm looking into a different crypter as we speak.

kalandershihabrock - May 17, 2013, 11:08 pm

Data protector if you know what you're doing as i heard it's always FUD. or else go with infinity. no\$ gets mad if you act stupid.

BottomNotch - May 17, 2013, 11:28 pm

I heard data crypter is OP... + He's been coding crypters for a couple of years now + refudding. Just saying.

n0\$3ratu\$ - May 17, 2013, 11:31 pm

(May 13, 2013 09:38 PM)evin7 Wrote: [\[CITE\]](#) Data protector hasn't been FUD for the pasted month , its currently 4/46

Yea right, maybe in your dreams.

Too bad you have only 4 days left on dp.

Oh well...

Precisio? - May 18, 2013, 3:02 am

I have to sat Data Protecotr, Always FUD and very powerful in bypassing proactives. The owner is very cool and kind person and keeps his crypter in high range of quality. DP has unique features such as advanced multi binder and etc.

Have a nice day.

laillaha - May 19, 2013, 1:04 am

i used DATA PROTECTOR ..the best for me

ZielGaming - May 21, 2013, 11:35 pm

Is this crypter worth it and good enough to buy for a life time?

?Roboscope - May 22, 2013, 4:43 am

Im thinking im gonna go with Infinity because i like all of its features it has and it is pretty FUD

CoBrAx. - May 22, 2013, 4:45 am

I suggest you get grendel . All of those suck.

?Roboscope - May 22, 2013, 4:46 am

Never head of grendel crypter actually, ill try to find it...

CoBrAx. - May 22, 2013, 4:58 am

(May 22, 2013 04:46 AM)?Roboscope Wrote: [\[CITE\]](#) Never head of grendel crypter actually, ill try to find it...

<http://grendelcrypter.com/>

Owner got banned due to account issues .

?Roboscope - May 25, 2013, 5:33 am

Still looking for best one, looks like data protector is getting more of the votes.

?Roboscope - June 15, 2013, 6:52 pm

I bought Data Protector, Everytime i crypt its FUD but the FUD doesnt last, it only lasts for like 2 days and then the FUDness goes away :/

Apple J4ck - June 16, 2013, 12:37 am

Well, out of those 3 I've only used Data Protector, and it worked well, so I'd say Data Protector is pretty nice.

Apostle - June 16, 2013, 3:31 am

Well, you should maybe try out Envy Protector. It says FUD for most of the time.

d4rkj4y - June 16, 2013, 4:09 am

My crypter - Industrial Crypt, 3-4kb stub, well over 1 month FUD, written in C, 100% execution rate, new creative method.

Stay tuned for its release within the next month or so.

Cha0 - June 16, 2013, 4:15 am

(May 12, 2013 01:41 PM)?nonyous Wrote: [\[CITE\]](#) I would without doubt go with Data Protector as well. You won't regret the purchase.

Agreed, Data protector is one of the best crypters ever sold on HF.

Just know that it's coded in C# meaning it has a .NET dependency. That's the only con.

eddy22 - June 28, 2013, 12:32 am

I want to know which crypter is the best for citadel

Stock209209 - June 28, 2013, 7:52 pm

Thats better than Cypher Elite. That program gave me a 11/37 reading. Crazy i spent 200\$ on that.

Ok i need help. I am new to this kind of stuff. Been away since 2006 when it wasn't that big of a deal not to have a file crypted. What is the best program that i can get without having a big rep on this site. It sucks being new :/

SilverNET - July 10, 2013, 1:54 pm

I have used only Infinity Crypter and Cube Crypter. To be honest I like them both. They both do the same thing for me. But I think that Cube Crypter is kindda more long-FUD that infinity (well I think so, since I don't have IC for now)... But in the other hand IC got more features than Cube. So you can choose what you want to. That was just my opinion ^^

*Edit. Here it is a picture of a scan monitor :)

[\[img\]http://elementscanner.com//image.php?ID=7422ee315cc6e68a50330cd808774ac4/\[img\]](http://elementscanner.com//image.php?ID=7422ee315cc6e68a50330cd808774ac4/)

4 Days and 5 hours. So it is more than 4 days, you realise why :P

Simmdon - July 10, 2013, 2:56 pm

I would say Infinity Crypter because me and Demoni are nuggas.

But, everyone loves Data Protector for some reason. ?

His Dudness - July 28, 2013, 9:52 pm

I think Ill be going with Data Protector....It sure does look like the best one

Holy ducking quack - August 1, 2013, 11:47 am

I'd say Data Protector, good FUD rate.

guomin - September 12, 2013, 8:00 pm

which crypter has a longer fud rate?

isuduga - August 12, 2014, 10:44 pm

among this crypters which one can any body suggest to me

and if i can purchase any of them via paypal?

Captain Steve Rogers - August 12, 2014, 11:49 pm

I will suggest Data Protector - [DataProtector v2|Advanced Binder|Bank Wire, PayPal, Credit cards, BTC & Perfect Money](#) by [n0\\$f3ratu\\$](#)

Yes they accept paypal.

I see you are new here.

1. Before posting anything please view last post date, this thread is 1 year old & last post was 11 months ago.

2. Please read help documents - <https://hackforums.net/misc.php?action=help>

What does that matter?

Would you rather a new thread made when the same question has already been asked? People complain about making new threads when the question has already been asked but when someone follows that, they still get told off for it.

It's perfectly valid, but the date is a long time off.

It's like what makes this any different from someone who closed their sales thread 2 years ago reopens it today?

It's a humble request please check his all posts.

He is just grave digging many threads.

And i agree with this "Would you rather a new thread made when the same question has already

been asked? People complain about making new threads when the question has already been asked but when someone follows that, they still get told off for it."

EDIT: see this <https://hackforums.net/showthread.php?tid=1667284&pid=41813897#pid41813897> he is posting in 3 year old thread where OP account is Closed, he is just posting/grave digging.

It doesn't matter if he is grave digging other threads because then that isn't valid (not that I even looked at the threads he is 'grave digging').

I'm only referring to this thread and therefore I will only speak of this thread.

But many kids make new accounts like this just to grave dig, so I wouldn't be surprised.

gboye411 - August 31, 2014, 5:24 am

what is the FUD rate.. want to know maybe its good with darkcomet rat..

kendrick5 - October 1, 2014, 11:46 am

Hmmm, after my subscription is run out of cube i think ill invest in data :P

rollsroyce - October 31, 2018, 7:44 pm

hello meltos,

how do i purchase a data protector crypter?

i was wondering if you know about data protector crypter, i have heard alot and i am researching on it, i need some information, so would be waiting for a reply. Thanks
