Thread: [\[Giveaway\] Pentatonix's \\$250 Giveaway Extravaganza! Dedicated to Cody and Daisy.](#)

Pentatonix - April 24, 2013, 8:38 pm

Hello, Hackforums. I'm Pentatonix, and I'll be doing an Upgrade Contest / Cash giveaway dedicated to [Cody](#) and [Daisy](#). [Cody](#) and [Daisy](#) both have shown an impeccable amount of generosity and dedication to Hackforums. They've upgraded and shown support to so many members without asking anything in return. So today, I'll be doing something for them. I know they themselves wouldn't want something, but to help benefit the community more.

Today I will be opening my upgrade contest for 5 L33ts and 5 Ub3rs. I will also be giving away some cash prizes!

L33T Form.

The cash giveaways will be substitutes for those who I deem worthy whom of which didn't get an upgrade.

I'm not setting an end-date because I'm not closing this until I find 10 worthy people of the upgrade.

Thanks for reading and I hope to see 10 great applications!

Kind regards,

Pentatonix.

Very nice giveaway, but your signature is also pissing me off, one of many Void members.

CyberneticTitan - April 24, 2013, 8:46 pm

Great giveaway. I remember when we both hosted contests and we were both L33T. Great times :)

Good luck to the contestants!

Hey what about the form to get the money, anyways if there isn't one I would love some money to get a crypter and pay some debt.

I didn't put an application for money because I don't have set amounts for people to win. They're more like alternates for the ones who didn't win an upgrade that did apply. :)

Why you wish to be upgraded: I love to help out HF in any ways I can. I give out free Graphics services, help whenever a user is in need and I can, & I also do whatever I can to make HF more enjoyable. I would really want to be upgraded to also be taken more seriously as a user. And Also to have access to parts of HF that I do not have now. Thank you for taking your time to do this contest and giving this opportunity OP!

A nice contest by you ... op !! I won't be begging and asking for money... currently I am running hackforums from HTC desire c via opera mobile browser having exams till 20 May can't do access hackforums from laptop or desktop ... living in rural area... would make money after 20 May and would donate in hackforums besides I gave my 11 \$ to member of hackforums who was scammed and I don't have any money to be upgraded for ub3r because I used my all money to go to college and I have pulsar 220 cc bike ... I would show all proof after 20 May ... because I am running from phone + I have a proof that I am still wearing a signature which is off competition... so I can't fill up applications ...but I am a generous guy who needs money and would donate to community and I have been approved for ub3r since my first application in January !!!

GOD BLESS YOU OP AND THANKS IN ADVANCE FOR NICE GIVEAWAY ... AND SPECIAL THANKS TO CODY AND DAISY FOR BEING SO NICE TO HACKFORUMS MEMBERS AND COMMUNITY !!!

Why you wish to be upgraded:

I wish I could be upgraded as I feel that when you are, you are more respected from the community. I think that if you are a regular member, you can be treated differently and quite harshly sometimes, this is why I would like to be upgraded. Also, I plan to release a few ebooks I have collected over the years into the l33t section, some of which are very useful. Apart from this, I would also like to be upgraded due to the perks you have (Pictures in sig e.t.c) well who wouldn't?

Thanks for reading, JPhillips.

If you check my rep you can see numerous people find me to be HQ, I know my post count and join date doesn't look very good but I come from many other forums in which I'm well known on. I hope I don't get judged because of that. Being granted with L33T I would be taken more seriously as a member and would be able to do more deals with other members without them feeling sketchy because I'm just a non upgraded member. I hope you do read this and consider upgrading me, I would honestly appreciate it.

Why you wish to be upgraded:

I want to be upgraded because I want to become a more acknowledged user on this site and therefore be more trusted and accepted by the community.

I always try to put in as much effort as possible to HackForums, as can be seen throughout my

posts, but I am quite often overlooked. As an Ub3r, I plan to help out lower members, as I was one recently, to try and get a head start on the site by pointing them in the right directions and aiding them in any questions they have. But I will also be trying to help those that have been here a long time by giving them some of the knowledge I have about different real life subjects.

I'm a friendly member who has made many friends over HackForums, and this mixed with excellent grammar and a love for the community has made my wish for an upgrade grow even greater.

Now that I am L33t, I am able to host contests again. I plan to do this very shortly with the money that I was previously saving for L33t. If I was Ub3r, it would mean that I could donate a certain percentage of money I make on Hackforums back into the community as I wouldn't have to save up for anything else.

Finally, I want to be upgraded for the benefits of Ub3r. Although I have only recently received those provided with L33t, I think that becoming Ub3r would be great as I can give more reputation which will therefore demonstrate with more power how I feel about certain people

What I think is that I can help HF is the biggest possible way I can. I hold a good rep for sure as you can see them as well as vouches from some most renowned persons on HF.

One of the reason is that I wish to be active in market place and I want to upgrade so that I can be trusted to people as I am. Also, I don't have to go first so that I cannot be scammed.

Another thing is that people dont trust my links I post to help them. They can trust me even and I can -rep the scammers or flamers on my own also. I also wanted to +rep the person who deserved.

Thank You For Reading My Application ?

I think its worth to upgrade me ?

Post statistics: 0.34 posts per day (I've been gone for a while and have recently came back, I've went from 30 posts to 108 in about a week though.)

Section you're most active in: I'm mostly active in the C/C++/Obj-C programming section. I sometimes go to the Java section, Batch section, Counter-strike section and the Lounge as well.

Skills: I've been programming in C++ for 6, going on 7 years now. I'm an avid game and an aspiring game developer. I'm working with a team on my own title that we hope to be finished with within the next year or so.

Notable threads created: <https://hackforums.net/showthread.php?tid=3432060>

I attempted to help a lot of the C/C++/Obj-C section by submitting a tutorial on something other than the overdone Hello World. Issue was, it seems that it wasn't taken seriously despite the detail I attempted to put into it.

Why you wish to be upgraded: Since I've come back, I've been a very active member of the community. I have helped out dozens in the programmings sections with various issues. I also believe that if I were to be upgraded to L33t, I would possibly be taken more seriously when attempting to help the section as a whole. Example being my FizzBuzz thread linked before. I feel I could help the community much more if I could get a voice of some kind. But as a non-upgraded member, this is quite a difficult thing to do.

Section you're most active in: I am most active in the lounge, I am also active in the xbox 360 section and free services and giveaways due to me giving netflix accounts out.

Why you wish to be upgraded: I help JABanking with his advertising, I browse the forum to help people, Find anything that is game related. I try to post when I can, and stay high quality. I'm friendly and if anyone needs help they can always ask. I'm always active. I would always try to give back the best I could. Being Ub3r would help show I am legit and a trustworthy member. I always seem to enter these upgrade contests and they upgrade members that have been here for a month and aren't always active. The reason I came onto hackforums was to be apart of a community, To make friends that love the same stuff that I do and learning is key to me. You can always learn something from someone on here. When I first signed up I was hoping to help a ton of people as well. I was recommended to be a part of hackforums by a buddy of mine Devlin016. Ever since I have been addicted, Sometimes I even spend 6-10 hours a day just browsing and talking to people. I try to be high quality as much as possible. I would say I am one of the few people on here who have a ton to say on such a small topic. When I explain something I go in depth and try my best so you understand. I really try my best to make hackforums a better place and I believe the only way to do that is remaining high quality and friendly.

Why you wish to be upgraded: I feel I have a lot more to contribute to this community, I would love to be creating a good few tutorial threads as I have a great deal of information, just sometimes I feel like I would wait till I am upgraded so I can maintain these threads to ensure they come out at the best quality and can be maintained to the highest standard. I also would love to be a more trusted figure, I'm aware that being upgraded doesn't make you more trustworthy but when you give out advice which could potentially save lives, it's essential that you look like a figure which is well established and trustoworthy. I like to think I have saved lives, given advice to a user who was close to suicidal from depression and given solid medical advice where I see a dangerous medical condition. Being a good doctor, is all about trust and authority. I am aware being L33T won't give me either but It's one stepping stone towards being somebody who can help people more, host more threads and assist and help add to this community where I can.

Thank you for this opportunity, and wishing all other applicants the best luck, I hope the best applicants are chosen ?

Time spent online Hackforums: 4 Days, 18 Hours, 36 Minutes, 19 Seconds

Post statistics: 315 (0.44 posts per day | 0 percent of total posts)

There was a reason for my inactivity, I had personal problems at home and was being kicked out of college so I didn't have time for HF, not making excuses just explaining.

Section you're most active in: I'd say RuneScape.

Skills: Good English (spelling and grammar), friendly, sociable, helpful.

Notable threads created: None I don't think.

Why you wish to be upgraded: I wish to be upgrade genuinely because I just want the cool features that come with it if I'm honest and I would love to change my name.

Thank you.

AXXO™ - May 11, 2013, 12:59 am

OP did you selected the winners? or when this contest is going to end?

(Apr 24, 2013 08:38 PM)Pentatonix Wrote: [\[CITE\]](#) I'm not setting an end-date because I'm not closing this until I find 10 worthy people of the upgrade.

You guys should read OP's post more carefully.

Anyways, here's my entry form:

Upgrade to: L33T

Time spent online Hackforums:2 Days, 7 Hours, 29 Minutes, 23 Seconds

Post statistics:133 (10.22 posts per day | 0 percent of total posts)

Section you're most active in:Minecraft; Griefing

Skills:Intermediate java coding, Advanced HTML

Notable threads created: I tried making threads people might like but it dies out within a few days.

Why you wish to be upgraded: Well, where can I start? There are many reasons on why one would want the upgraded ranks.

Let's compile a list first:

-People will treat you more seriously and with more respect.

-It's a better opportunity to start giveaway threads and edit them as much as possible without

making a ton of new threads.

- Pictures in signature; gives creators of certain things more support.

- There's this simple reason; as a human gets better things they'll become more attached.

- As a lower class man you tend to be treated automatically as an LQ member and your post will be rendered moot merely because most stereotypes of normal members = LQ posts.

I could continue on, but I have to wrap this up because it's getting pretty late. Basically, what I'm trying to point out that L33T will be a very beneficial rank for me, I could help out the community a bit more without being treated like trash. I understand why people will ignore most of regular member's post but it seems as if it gets annoying when they ignore it when you're TRYING to help someone out.

EDIT: I realised that I may have seem a bit illiterate and retarded in parts of the post, but it's late. I tried my best and wish everyone good luck to who those participated in this competition Pentatonix has hosted.

Notable threads created: Free adword coupons,

<https://hackforums.net/showthread.php?tid=3466427>

Why you wish to be upgraded: I love HF and come on here almost every day. I value the community and sometimes give away stuff. I've had my mistakes, not going to hide it. I failed with my AdWall service. Overall I think I've done more good then harm. I try and be friendly, have helped preserve websites that didn't deserve abuse, and some other stuff.

This is a really cool thread, hope I get one!

Update: I've actually purchased L33t now to show my support for the community. This is still an awesome thread, though!

Upgrade to: L33T

Time spent online Hackforums:I have been browsing hackforums for a while before I started to actually be active. If I had to average it out, I would say about 5 days.

Post statistics:Not sure what this means. I'm assuming that it is my post count which is 160.

Section you're most active in:Defiantly the "Rate My Graphic" sub-section. I am really into graphic design. I also occasionally post in the Lounge and my groups subsection "Void"

Skills:I have great skill in writing. I am also decent at graphic designing. If you want to view some of my work, just pm me :D (or reply to this and I will pm you.) I am also an avid gamer. I really like to just chill and play games.

Notable threads created:None really

Why you wish to be upgraded:I really want to be included more in the Hack forums community. You gain so much respect from everyone if you are upgraded. I really like HF and you can be %100 sure I will stay for a good while. I currently am doing whatever I can for PP money. I've worked hard for YT and PPD money. Currently I'm looking for this upgrade because I believe I would be good for many hack forums users!

All of them are giveaways.

Why you wish to be upgraded: I just feel that upon upgrading, I'll get to see HF in a whole different perspective and still contribute the way I do so already.

BLKLXVESMATTER! - May 28, 2013, 12:13 am

I'm not here to enter, I'm just here to wish everyone good luck & thank you on behalf of the

community.

So.. Good luck everyone!

Thank you for this wonderful contest. ?

Also, you should probably add to the Op that you must be an l33t that has been accepted for an ub3r upgrade to be upgraded. I remember back in the day when I would enter a contest as I didn't know you had to be accepted for ub3r.

Anyway, good luck everyone! ?
