A thread like this should be stickied, I have never seen anything like this. This is a complete A-Z reference guide on how to e-whore. I mean I wish something like this was available when I started out. Prop's to scooter for compiling all of this information, he is turning out to be one of the most helpful members of this community.

Secret Agent Minion - April 25, 2013, 1:36 am

Freaking outstanding. Haven't downloaded or done anything, but the way this thread looks.. But now I actually want to ewhore just to try this out. Good work man.

VERY HQ

clear all the data from internet explorer (cookies cache etc.)....change your IP by disconnecting the power supply of router for 5 minutes.

Login again and you will be able to access CR.

I would advise to be careful using a vpn for paypal, but private tunnel is a great resource for creating canadian paypals. Just make sure you don't get sloppy with cookies.

Hey does the VPN listed in this have a lot of USA / UK IP`s or limited to only some ?

R?????????™ - June 30, 2013, 12:35 am

(Jun 30, 2013 12:31 AM)iDouble Wrote: [\[CITE\]](#) Hey does the VPN listed in this have a lot of USA / UK IP`s or limited to only some ?

IP's are assigned randomly. If you want a vpn with dedicated IP's please buy them from marketplace.

iDouble - June 30, 2013, 12:36 am

Yea IPs are assigned randomly what I am asking is , can you get the same IP like 10x times ? even more ?

R?????????™ - June 30, 2013, 12:41 am

Getting the same IP 10 times in a row is not possible on the VPN's i have posted on my thread.

iDouble - June 30, 2013, 12:44 am

Allright than this would work great for the black hat method I will release , it will be linked to your thread a part of it.

Okay....i don't mind.

??

iDouble - June 30, 2013, 12:51 am

I am also thinking of creating it in a .PDF format and selling it , it has a lot of potential and imagine what it can do if many have it, you will get it for free as is using your vpn.

Well actually im not using paypal (fck them) so I will share it for free.

His link to 70 other sites leads to an online .TXT file viewer.

Don't know if you can get infected this way, but as for your question, i don't know if it's 100% clean, didn't download his other files.
