Vouch for Calif0rnication!

Spoiler ([Click to View](#))

Hello! My name is Krew and I will be reviewing your e-book today! Please keep in mind that this is my strict opinion on this e-book and may vary depending on the reader.

Quality

The quality of this ebook is good. The author explained his methods very well, without you having to read 20 paragraphs.

Ease of use:

The method may be challenging for those who are complete new to the internet, but the author does explain very well on how to start.

Layout:

The layout of this eBook is very good. The font is very easy to read on the white background and the font is a good size. The author include various links and pictures to help out members which is very good also.

Grammar:

The grammar is pretty decent. I did find an error that should of been fixed but overall the grammar of this eBook is pretty good. After reading this eBook I did not find any spelling errors it was mostly just grammatical errors.

Originality:

This eBook is pretty original. There are many E-Whoring methods but this one is unique because the author put in his own tips and tricks which is very helpful.

Good luck with sales!
