I found something really good!

There's a site that you can buy a custom designed mouse pad just in ONE DOLLAR! a reliable site that accept PayPal and with excellent reviews!

Just enter to this link:

<http://www.artscow.com/photo-gifts/mousepad/large-mousepad-160>

Design the mouse pad you want, and in the checkout put the with following code:

10DOLLARSDISCOUNT

And enjoy!

There are other things you can buy with the coupon, I think they cost even 99 cents, not checked, this is the list:

<http://www.artscow.com/photo-gifts/99cents-gifts>

It is possible to realize the coupon only once in one account - after inviting once the operation is not over, mouse pad will cost \$ 4.99 including shipping!!

Free Shipping for those who don't understand!

Here you can see a proof of the reliability of the site:

Ive gotten a minecraft mousepad from there. Shipping was slow as shit since it came from china. But the quality was good though.

I ordered from this website, and I got the mousepad. It actually didn't come out as "dark" as they said it would. Great mousepad, great quality, and the shipping was about 2 weeks, which is pretty fast considering it's from China all the way to the US.

Thanks for the deal I will keep this in mind!

One dollar? what a bargain!! cant believe that

I ordered mine a week and a half ago (I found out on a Facebook page).

Received it today (After they said it had been shipped, it took 8 days).

It looks quite good, but it smells a bit funny and was bent a bit in the post (Have put a heavy box on it to make it straight).

It's not completely bent, just one corner isn't laying completely flat, so don't let this put you off.
