Thread: [Subxcess.com - Imacros Scripts - 200-1k subs daily - Working](#)

Jimmie - April 27, 2013, 4:33 pm

I made a few subxcess imacro scripts so I thought I would share them.

Auto subscriber

How to use

- 1.Install Imacros for firefox
- 2.Login to Subxcess - Register and setup your account/youtube if you have never used it.
3. Copy the macro code to "sub/watch/Add" Paste into macro editor, and set the loop amount, and click play loop.

Note- If you use this on different ips such as a vps your points will be reset.
