[align=center]Like the title says, i need pictures of your eyes!

Sounds strange but not really - Its for my artwork, will be doing a painting based on it.

Here is an example of one i took, see how it focuses on the eye/ eye brows and some nose.

WHAT YOU NEED TO DO?

- Take various eye shots, get someone to do it for you.
- The more you take, the higher chance of you winning.
- I need decent pictures, so dont rush it.
- Upload in .ZIP

If you dont want to post the images here you can PM me them, just make sure you posted here so you taken part.

There can be more then 1 winner, i will give \$2 each

- I will be giving out free youtube views to specific people who posted decent images.

Need these ASAP, deadline is today ?

Why not use Google images.. I doubt you'll get no more than 2 people contacting you about this..

Just trying to help you considering your deadline is today.
